

# User Manual for LeXing Wireless Charging Stand

## User Manual for LeXing Wireless Charging Stand

### Product Overview:

Thank you for choosing our wireless charger! This product adopts the latest Qi wireless charging technology, aiming to provide you with a convenient, efficient, and safe charging experience. No need to plug or unplug cables, simply place Qi standard devices gently on the charging pad to enjoy the convenience of wireless charging.

### Product features:

**Efficient Charging:** Supports up to 15W (some models) fast wireless charging to quickly restore your device's battery life.

**Wide compatibility:** Suitable for all electronic devices such as smartphones, smartwatches, and wireless earphones that support the Qi wireless charging standard.

**Intelligent recognition:** Equipped with an intelligent chip, it automatically identifies charging devices and adjusts them to the most suitable charging power.

**Security protection:** Equipped with multiple safety mechanisms such as over temperature protection, short circuit protection, and foreign object detection, ensuring a worry free charging process.

**Fashion design:** ultra-thin design, paired with anti slip bottom, both beautiful and practical, suitable for various occasions.

User Manual (i.e. this manual)

### Preparation before use:

- 1. Power adapter selection:** It is recommended to use original or compatible QC3.0 or higher standard power adapters (at least 9V/2A) to ensure optimal charging performance.
- 2. Connect the charging cable:** Insert one end of the USB-C charging cable (if equipped) into the charging port of the wireless charger, and connect the other end to the power adapter.
- 3. Power on:** Insert the power adapter into a power outlet.
- 4. Car charging:** Connect the power cord of the car wireless charger to the cigarette lighter socket or USB interface of the car. If using a cigarette lighter socket, please ensure that the plug of the power cord matches the cigarette lighter socket.

### Charging operation:

1. **Place the device:** Ensure that the back of your device is clean and free of foreign objects, and gently place it in the charging area of the charger.
2. **Charging indicator light:** Most models are equipped with a charging indicator light. When the device starts charging, the indicator light will light up or change color. Please refer to the indicator light instructions on the product for details.
3. **Complete charging:** After charging is completed, the device will automatically stop charging and you can take the device away for use at any time.

#### matters needing attention:

Do not cover the wireless charger or device during charging to avoid affecting heat dissipation and charging efficiency.

Avoid metal objects, magnetic objects, or thick shells that may affect the charging effect.

In case of abnormal charging (such as overheating, abnormal noise), please stop using immediately and contact customer service.

Do not allow children and pets to come into contact with the charger to prevent the risk of electric shock.

Do not immerse the charger in water or place it in a damp environment.

Do not attempt to disassemble or repair the charger to avoid electric shock or damage to the product.

#### Maintenance and upkeep:

Regularly use a soft dry cloth to wipe the surface of the charger and keep it clean.

Avoid severe impact or falling to prevent damage to internal components.

When not in use, it is recommended to disconnect the power supply to extend the product's lifespan.

#### Customer Service:

If you encounter any problems during use, please feel free to contact our customer service team at any time, and we will be dedicated to serving you.

#### Conclusion:

Thank you again for your choice! We believe that this wireless charger will become an indispensable part of your daily life

#### **FCC Warning**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
