Please read the user manual carefully before using the product. Please keep the manual in a safe place.</p></div>	<div></div> <div><p>01 Connect the female socket to the mounting holes on the back of the wireless charging head using a hex screw wrench along with screws.</p></div>	<div><p>02 Rotate and loosen the female socket knob to fit the female socket hole onto the ball head, then rotate to lock it in place.</p></div> <div></div>
<div><p>03 Peel off the 3mm adhesive tape and stick it to the horizontal surface where it is to be used, and it is ready for application.</p></div> <div></div>	<div><p>03 Connect the power supply using a Type-C data cable.</p></div> <div></div>	<div></div> <div><p>04 Devices equipped with MagSafe functionality or using magnetic stickers will automatically adhere to the wireless charging head when placed nearby.</p></div>	<div><h4>Performance Parameters</h4><ol style="list-style-type: none">1.Selected Voda chip solution for ultra-stable continuous charging at 5-15W.2.Reinforced glass panel.3.N54/3+1 dual-magnet configuration for strong magnetic adsorption.4.Optional connection to 17/25.4mm ball heads or 17mm threaded sockets.5.Compatible with G-LOCK quick-release ecosystem.6.Output power: 5-15W.7.Operating frequency: 115KHz-205KHz.8.Charging distance: 2mm-6mm.9.Certifications available: FCC, CE, RoHS,UL.10.Transmitting coil: Single coil.11.Input current: TYPE-C /9V/ 2A.</div> <div><h4>Safety Warning</h4><p>FCC Warning This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help. FCC RF exposure statement:The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.</p></div>
