Safety Information

WARNING:

- **Keep out of reach of children.** This product contains small parts that may pose a choking or injury hazard if ingested or misused.
- **Batteries are hazardous.** This product uses coin or button cell batteries, which can cause severe internal burns or death if swallowed or inserted into the body. If a battery is swallowed, inserted into the body, or otherwise improperly handled, seek emergency medical attention immediately.
- **Use only the battery type specified in this manual.** Incorrect batteries may rupture, causing damage or injury.

Caution

WARNING:

- Used batteries should be promptly recycled at an appropriate recycling facility. Do not dispose of batteries in household trash.
- Leaking batteries can cause chemical burns. Avoid contact with leaking battery material to skin, eyes, or clothing. If contact occurs, rinse thoroughly with water and seek medical advice.
- Batteries can rupture or explode if exposed to fire or excessive heat. Keep batteries away from sources of heat.
- Do not use rechargeable or reusable batteries.

Important Guidelines

- Always handle batteries with care.
- Do not allow children to install or handle batteries without supervision.
- Follow the battery manufacturer's instructions for handling, storage, and disposal.

Installation Warnings:

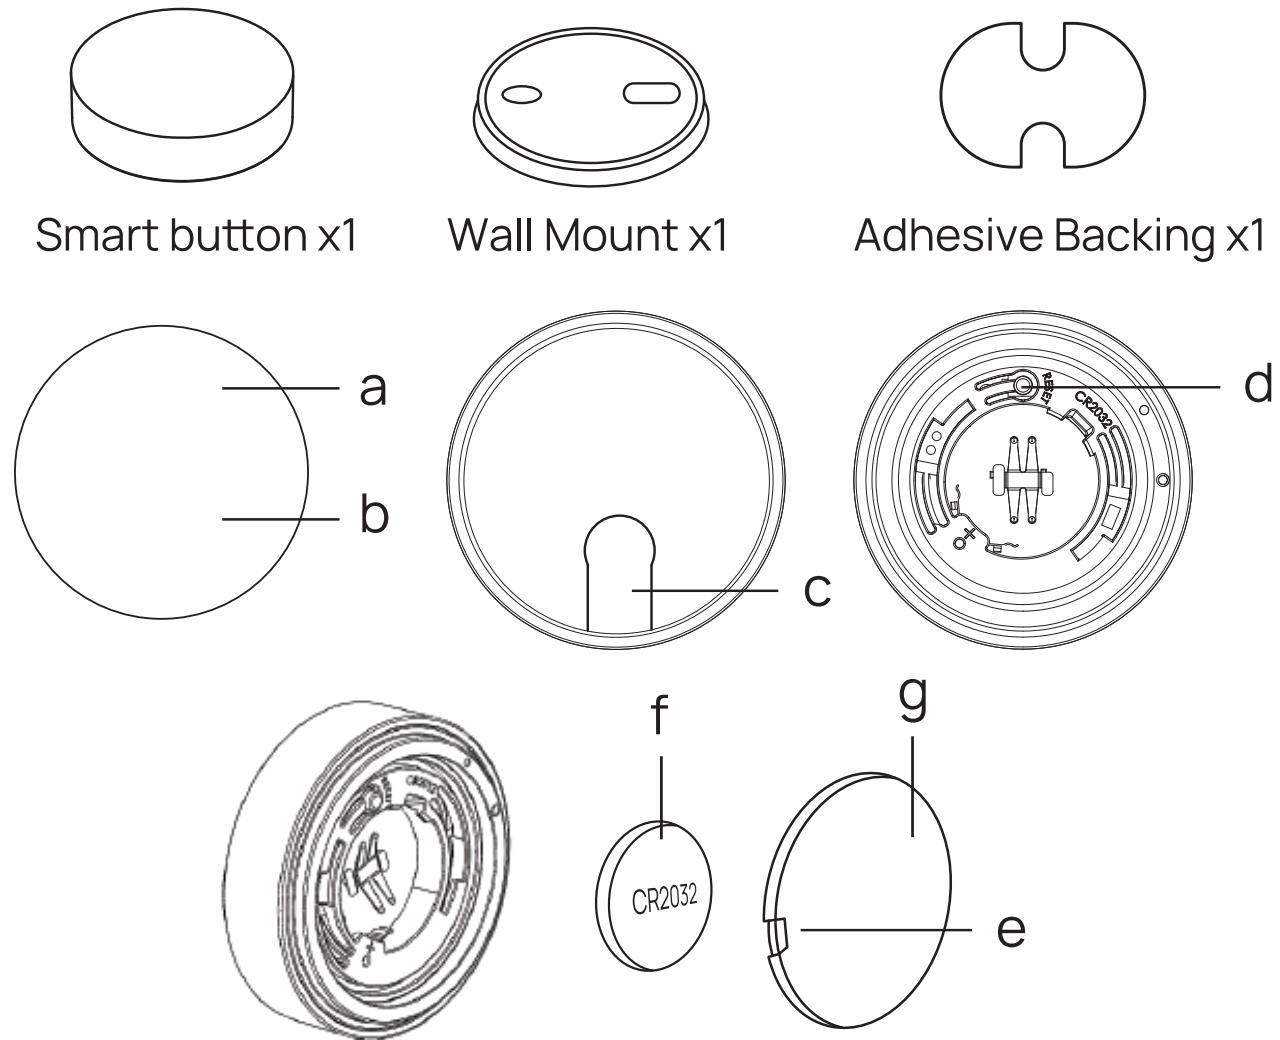

Do not install this product:

In wet or damp locations, Outdoors.

Near metal objects or mirrors that may interfere with radio signals.

Close to high-power mains wiring.

Package Contents

Part Label	Description
a	Indicator Light
b	Outer Cover
c	Battery Tab
d	Reset Button
e	Battery Access Notch
f	Battery CR2032
g	Battery Cover

Remove the battery tab (C), found beneath the battery cover (g), before first use.

Usage

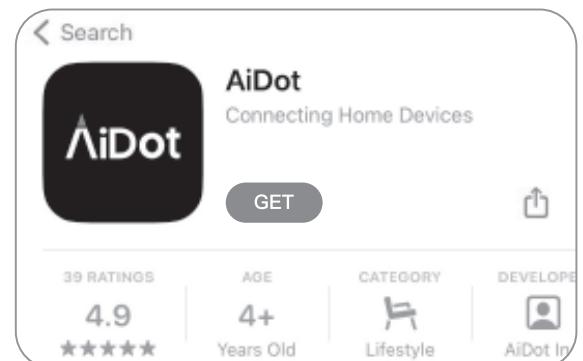

Input	Function
Single Click	Toggle the light/s on or off. Can be set to perform other functions.
Double Click	Adjust the color temperature of the light/s. Can be set to perform other functions.
Long Press	Adjust the brightness of the light/s. Can be set to perform other functions.

Connect to the aidot app

1. Search "AiDot" on the App Store, Google Play, or simply scan the QR code.

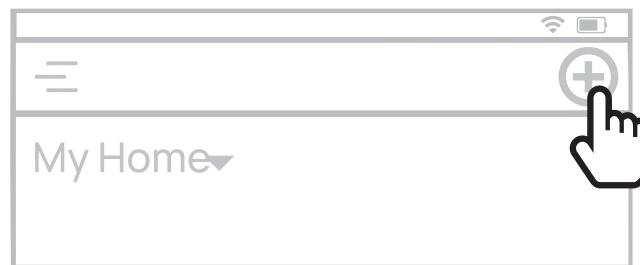

Google, Google Home and Google Play are trademarks of Google LLC.

Download Interface

2. Sign in or create a new account.
3. Ensure Bluetooth and location services are enabled on your mobile device.
4. Tap '+' within the AiDot app and then select your Smart Button from the list of devices shown.

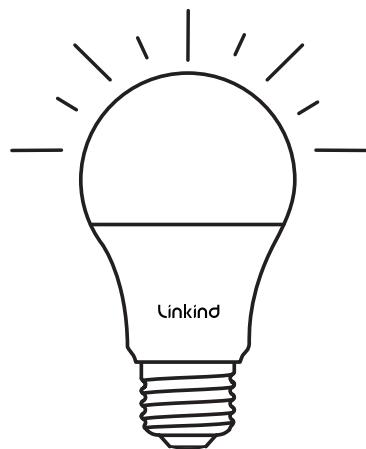

5. Follow the remaining instructions in the AiDot app.

Frequently Asked Questions

Q: How can I pair a Linkind or other Works with AiDot light with my Smart Button?

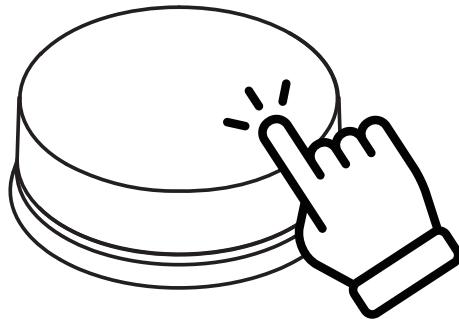

A:

1

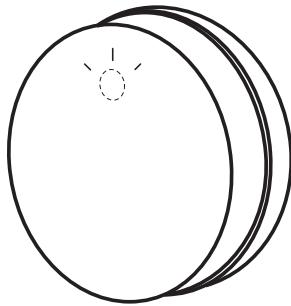

1. Turn on the light.

2

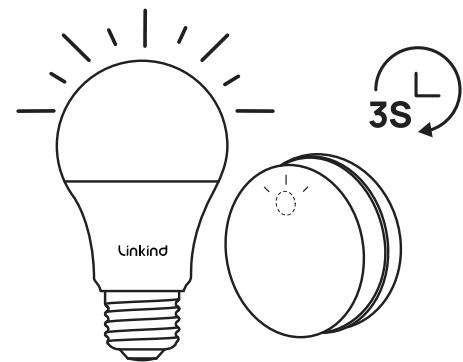

2. Within 1 minute, click your Smart Button 3 times.

3

3. The red light on your Smart Button will flash, indicating it has entered pairing mode.

4

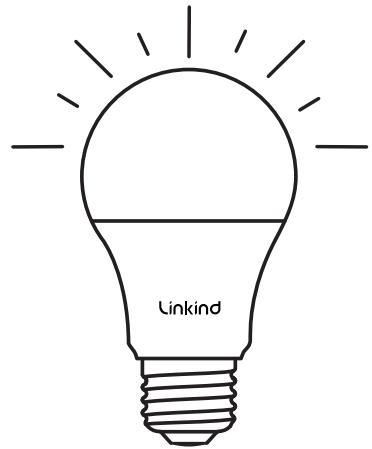

4. Once the light and Smart Button have connected, your Smart Button's indicator light will stay on for 3 seconds, then turn off, signaling that pairing has been successful.

Note: The light and Smart Button are already paired when purchased as a set and can be used together immediately without additional setup.

Q: How can I unpair a light and my Smart Button?

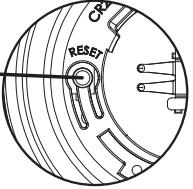

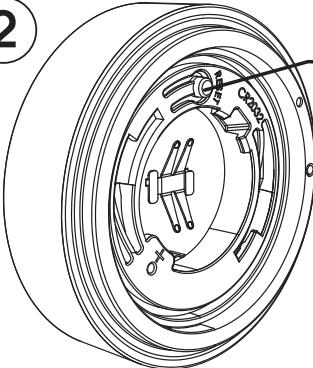

A:

1

1. Turn on the light.

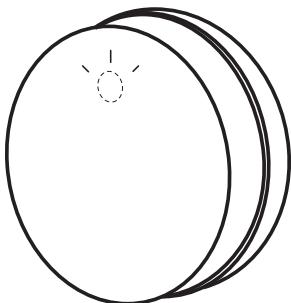

2

Press once

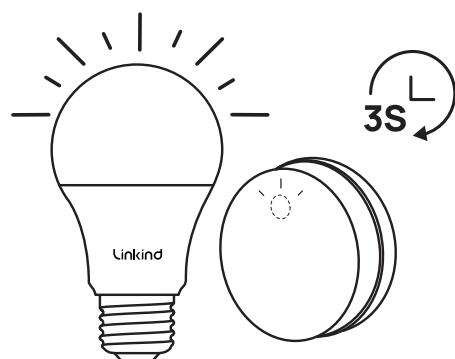

2. Within 1 minute, press your Smart Button's reset button once. You must open the bottom cover to access the reset button.

3

3. If the red indicator light on your Smart Button flashes, it has entered unpairing mode.

4

4. The indicator light will stay on for 3 seconds, then turn off, signaling that the unpairing has been successful.

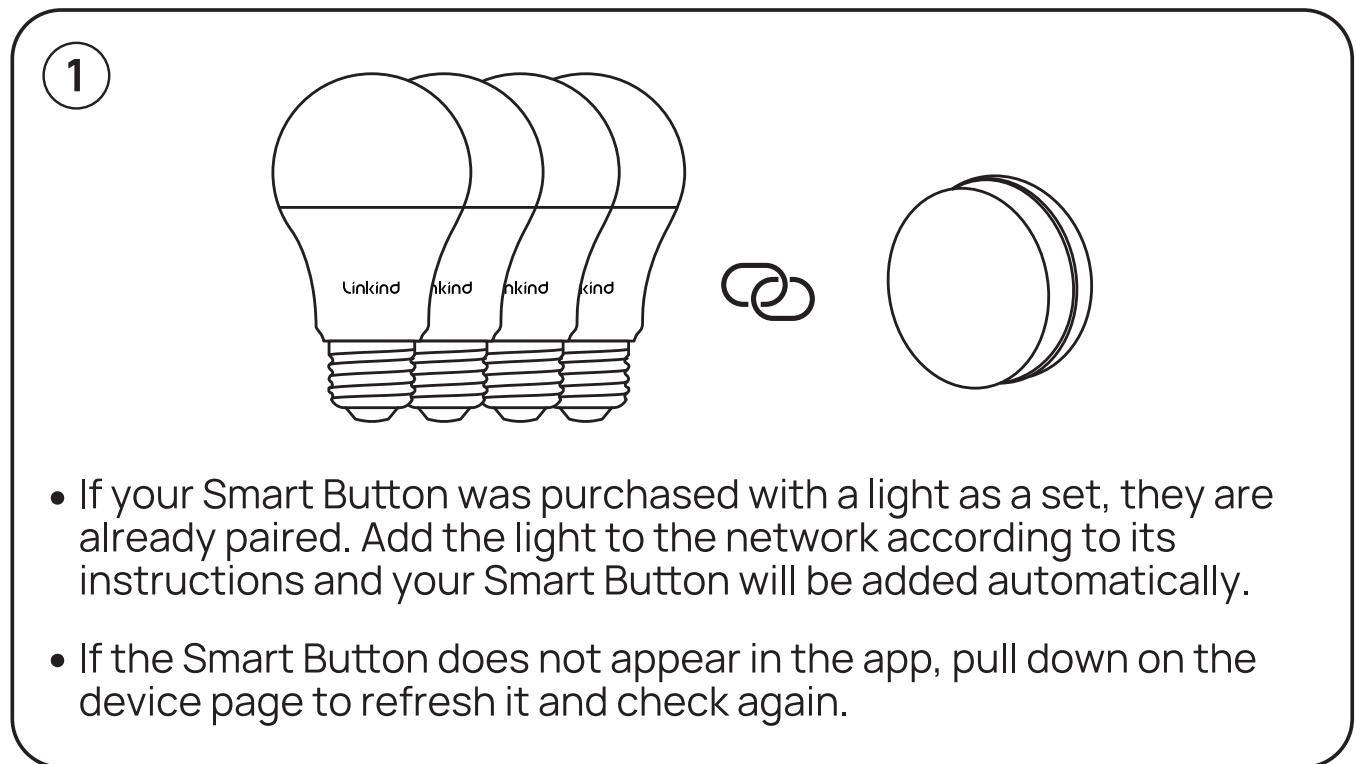

Note: Pairing or unpairing must be done within 1 minute of turning on the light. If the light has been on for more than 1 minute, turn it off and then back on before starting the operation.

Q: How can I connect my Smart Button to my network?

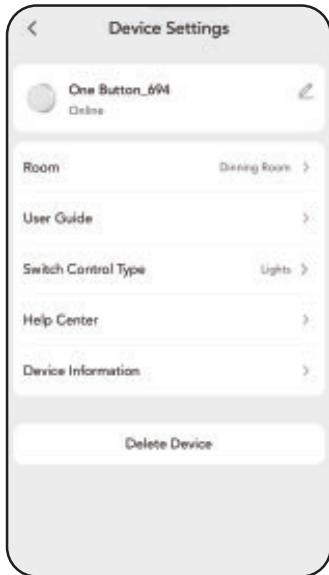

A: There are two methods to connect the Smart Button to your network.

Method 1:

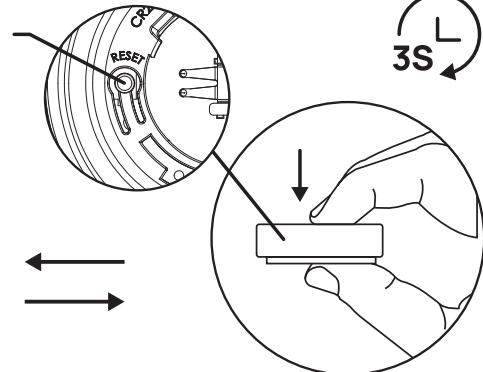

Method 2:

2

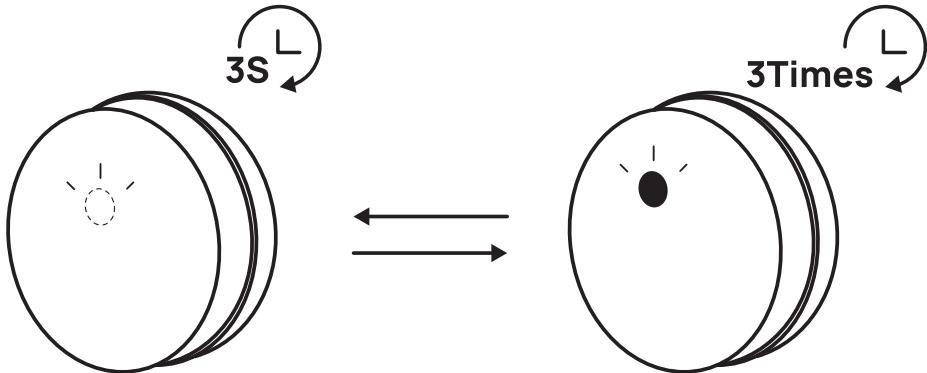

At the same time
press and hold

- Turn on Bluetooth.
- Press and hold your Smart Button's reset button and ON/OFF button simultaneously for 3 seconds.

3

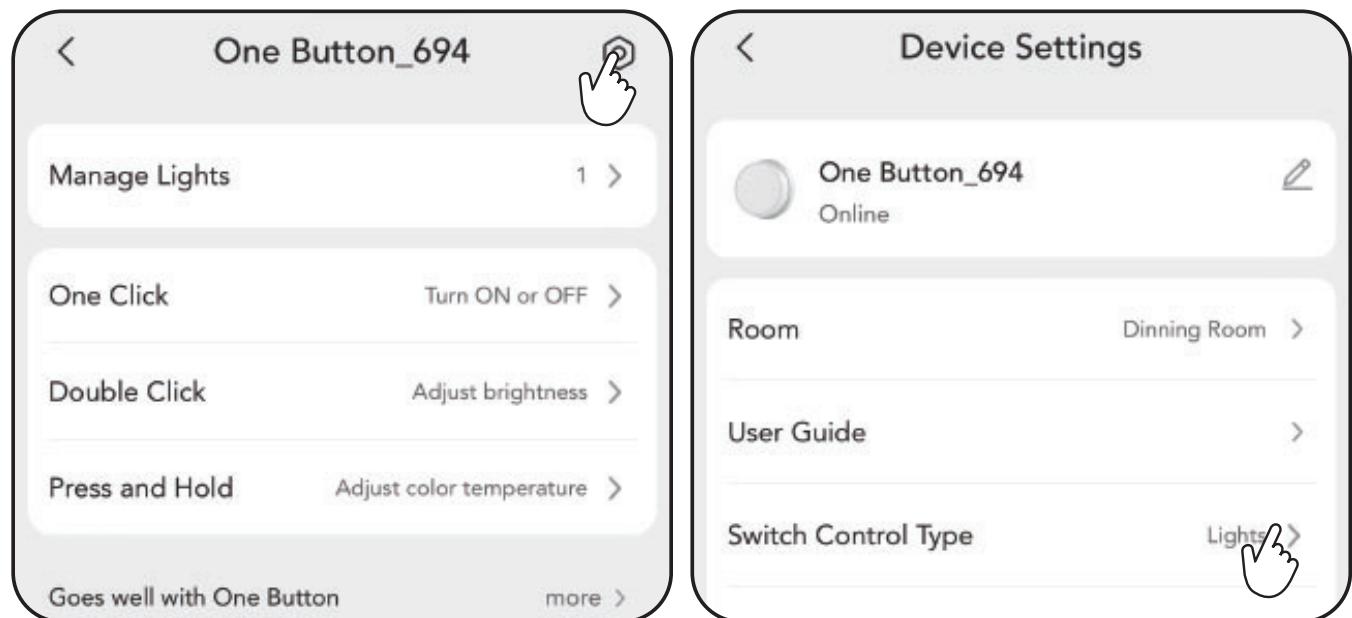

- The red indicator light on your Smart Button will flash, signaling it is in pairing mode.
- The network pairing process in the app is the same as for a light bulb. Once pairing is successful, the indicator light will stay on for 3 seconds.

Note: If there is a delay in connecting to the network, your Smart Button may only appear in the app after refreshing the device list.

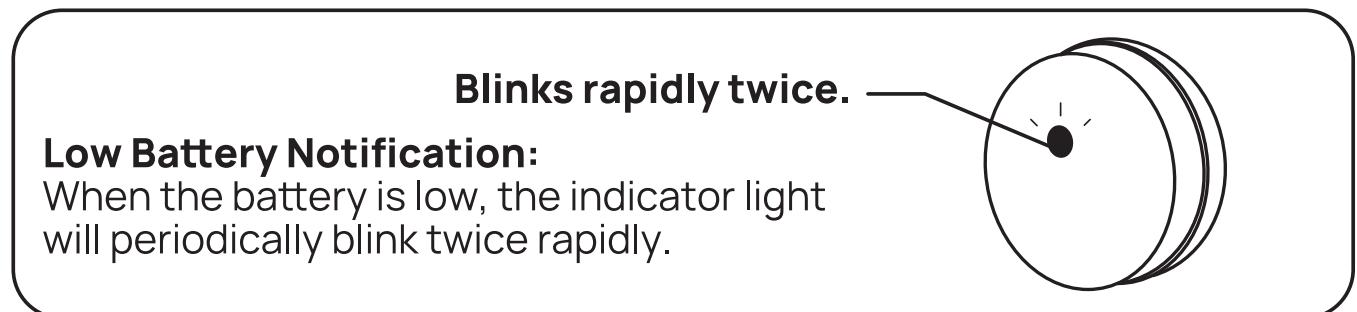

Once your Smart Button is connected to your network, you can customize its functions in the app, including selecting controllable devices, scenes, and events.

Note: If you remove your Smart Button from the app, it will no longer be able to control connected devices.

Q: How do I know when to replace the battery, and how do I replace it?

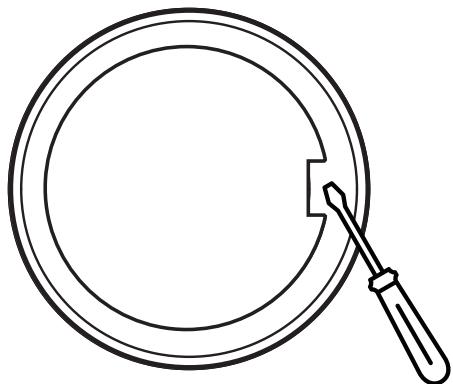

A:

How to Replace the Battery:

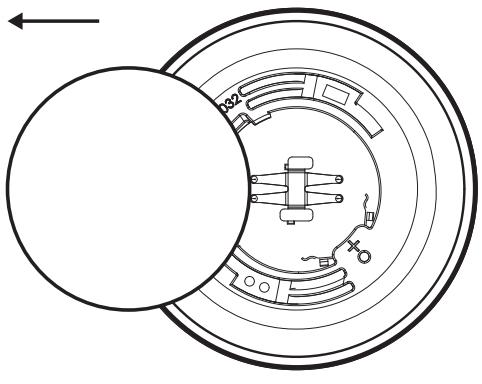

A:

1

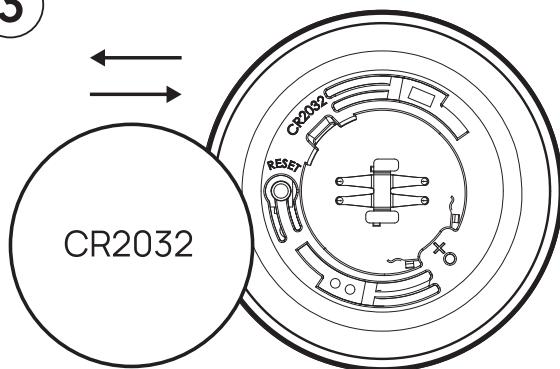

1. Remove the battery cover.

2

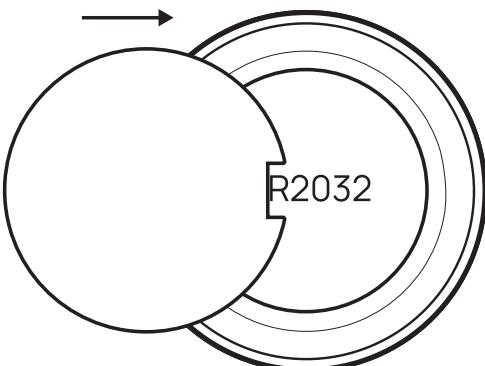

2. Gently pry out the old battery.

3

3. Install a new CR2032 battery, ensuring it is installed in the correct orientation.

4

4. Replace the battery cover.

Troubleshooting

Problem	Possible Causes	Solution
The remote control is not working, and no indicator light is shown.	<ul style="list-style-type: none"> The battery is depleted. The battery is installed incorrectly. 	Ensure the CR2032 battery is installed correctly and still has power.
The light cannot be controlled by the remote control immediately after setup.	<ul style="list-style-type: none"> The devices need a moment to respond after setup. 	Wait a few seconds and try again.
The remote control cannot connect to the light.	<ul style="list-style-type: none"> The battery is depleted. The maximum number of connected devices has been reached. 	1. Ensure the remote control has power. 2. If the device limit is reached, reset the remote control and try again. Note: Previously connected lights may need to be reconnected.
The remote control cannot control the lights.	<ul style="list-style-type: none"> The light is out of range. 	Move the remote control closer to the light and ensure it is within control range.
The remote control cannot connect to the light after the indicator blinks for 60 seconds.	<ul style="list-style-type: none"> The light is already connected to another remote control. 	Retry the connection process.
The remote control cannot connect to the light.	<ul style="list-style-type: none"> The light is already connected to another remote control. 	Reset the light to factory default and retry the connection process.
The remote control cannot unpair the light after the indicator blinks.	<ul style="list-style-type: none"> The devices are not responding properly to instructions. 	Retry the unpairing process.

Certification

Safety certification: CE/FCC Certification agreement: BLE

Usage Environment Requirements

Operating Temperature: 32°F to 104°F (0°C to 40°C)

Operating Humidity: Up to 85% non-condensing

Storage Temperature: -4°F to 140°F (-20°C to 60°C)

Environmental requirements: RoHS/REACH

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

15.21

NOTE: The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

15.105(b)

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television

reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

RF Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IC Statement

This device complies with Industry Canada's licence-exempt RSSs.

Operation is subject to the following two conditions:

- (1) This device may not cause interference; and 11
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

L'appareil ne doit pas produire de brouillage;

L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

ISED 20cm RF

ISED RF Radiation Exposure Statement:

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

Pour se conformer aux exigences de conformité CNR 102 RF exposition, une distance de séparation d'au moins 20 cm doit être maintenue entre l'antenne de cet appareil et toutes les personnes.

Statement

- a. Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do NOT dispose of batteries in household trash or incinerate."
- b. Even used batteries may cause severe injury or death.
- c. Call a local poison control center for treatment information.
- d. The compatible battery type CR2032.
- e. The nominal battery voltage 3V.
- f. Non-rechargeable batteries are not to be recharged."
- g. Do not force discharge, recharge, disassemble, heat above (manufacturer's specified temperature rating) or incinerate. Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

Statement

- a. Ensure the batteries are installed correctly according to polarity (+ and -).
- b. Do not mix old and new batteries, different brands or types of batteries, such as alkaline, carbon-zinc, or rechargeable batteries.
- c. Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.
- d. Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.
