Light Strip Power Adapter Controller Adhesive Backing
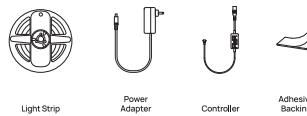

Product Overview

The Linkind LED Light Strip EL6 RGBTW elevates indoor spaces, creating cozy, vibrant, and entertaining atmospheres. It also offers a range of advanced features for greater control and added lighting fun.

App Control   Voice Control

Timers & Scenes   Music Sync

Color Control   Tunable White

Using the Controller

	1. Short press (less than 1s) to turn your EL6 on or off.
	2. Press and hold for 5s to enter pairing mode.
	3. Press and hold for 10s to perform a factory reset. Once the reset is complete, your EL6 will power on and display a color cycle to indicate it is in pairing mode.
	1. Short press (less than 1s) to adjust the brightness by 1 step.
	2. Press and hold for more than 2s to precisely adjust the brightness. Release the button once your desired brightness has been reached.
	1. press (less than 1s) to change the color of your EL6.
	2. Press and hold for 2s to turn Music Sync on or off.

Connect

1. After installing EL6, connect it to power as shown below.
2. When initially powered on, or after a factory reset, EL6 will slowly cycle colors to indicate it has entered pairing mode.
3. Refer to the following sections to connect EL6 to either the AiDot app or your existing Matter ecosystem.

Connect to the AiDot App

1. Search "AiDot" on the App Store, Google Play, or simply scan the QR code.
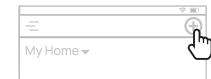

Download on the App Store

GET IT ON Google Play

Google, Google Home and Google Play are trademarks of Google LLC.

---

2. Ensure your phone has Bluetooth and location services enabled. Give the AiDot app permission to these if requested.
3. Sign in or create a new account. Once signed in, tap '+' to begin adding your EL6.

My Home

4. The AiDot app will guide you through the rest of the process.

Connect to a Matter Ecosystem

Note: A Matter Controller and the corresponding smart home app are required, such as an Apple HomePod and the Apple Home app. Additionally, ensure your phone and Matter Controller are connected to the same 2.4 GHz Wi-Fi network.

---

1. Download your choice of Matter-compatible smart home apps, such as Alexa, Google Home, Apple Home, or SmartThings.
2. Enable Bluetooth on your mobile device and power on your EL6.
3. In the smart home app, initiate the process for adding a new device and then scan the Matter QR code on your EL6. You can also manually enter the pairing code, which can be found beneath the Matter QR code on your EL6.
4. You may also scan the Matter QR code below. If you encounter any issues adding EL6 in this way, ensure this Matter QR code below matches the Matter QR code on your EL6, as illustrated in the diagram below.

FAQs and Troubleshooting

Q1: What should I do if the light strip does not work or is malfunctioning?
A: 1. Ensure you are using the provided power adapter.
2. Power off the light strip, then power it back on.
3. Confirm that both the power adapter and the controller are powered on.
4. Press and hold the power button on the controller for 10s to perform a factory reset.

Q2: Why does the full light strip not display the selected color, or why do some sections of the light strip not light up?
A: 1. Please contact the Linkind Support Team for assistance. Their contact details can be found at the end of the FAQ section.

Q3: What should I do if I cannot connect my light strip to the AiDot app?
A: 1. Make sure you have enabled Bluetooth on your mobile device.
2. Your mobile device may be incompatible with the AiDot app. Please try a different device.
3. Power off both the light strip and your mobile device's Bluetooth, then power both back on and try again.
4. Make sure your mobile device is within 3 ft (1 m) of the light strip while connecting.
5. Remove any obstructions between the light strip and your mobile device.

Q4: What should I do if my light strip cannot connect to Wi-Fi?
A: 1. Follow the Wi-Fi connection steps in the AiDot app or your Matter smart home app.
2. Ensure your Wi-Fi network is using the 2.4 GHz frequency. 5 GHz Wi-Fi networks are not supported by your light strip.
3. Connect your mobile device to your Wi-Fi network and verify that the network is functioning properly.
4. Confirm that you have selected the correct Wi-Fi network and entered the password correctly.
5. Try with an alternate Wi-Fi network to rule out your Wi-Fi network as the cause of the issue.

Q5: What should I do if my light strip appears to be offline?
A: 1. Try controlling your light strip to see if it responds normally.
2. If the device does not respond, power it off and on again. Wait for 2 minutes to see if it comes back online.

Q6: How can I reset my light strip?
A: 1. Press and hold the power button for more than 5 seconds. It will reset and then enter pairing mode.
2. 2. Press and hold the power button for more than 10 seconds. It will perform a factory reset and then enter pairing mode.

Q7: How can I connect my light strip to Alexa?
A: 1. After connecting your device to the AiDot app, navigate to AiDot > Integration and select Amazon Alexa.

---

2. Enter your Alexa username and password to link your accounts.
3. The AiDot skill will now be enabled within the Alexa environment. The skill is called AiDot.
4. Once connected, you can use Alexa devices to control your light strip using the name you assigned in the AiDot app. You may ask Alexa to turn the light strip on or off, change colors, and adjust the brightness.

Q8: How can I connect my light strip to Google Assistant?
A: 1. After connecting your device to the AiDot app, go to AiDot > Integration and select Google Assistant.
2. Search for the AiDot action within Google Assistant. The action is called AiDot.
3. Once connected, you can use Google Assistant devices to control your light strip. You may ask Google Assistant to turn the light strip on or off, change colors, and adjust the brightness.

Q9: How can I receive further support or extend my warranty?
A: 1. If you have any further need for support, please contact us via:
Email: service@linkind.com
Phone: 1-877-770-5727 (Mon. – Fri., 9:00 AM to 5:00 PM PST)
Your light strip is protected by a product warranty spanning 1 year from the date of purchase. To extend this warranty, please visit www.linkind.com/registration.
