⚠️ **Precautions for Installation**
* The installation wall can bear at least 3 times of the total weight of camera.

⚠ Warning

- During the installation and use of the product, please strictly abide by various electrical safety regulations of the state and the related region;

- Please use the power supply that meets the requirements of SELV (Safe Ultra-Low Voltage). The specific power supply requirements are subject to the product parameter list.

- Please install easy-to-use electrical disconnection device when installing wiring, so as to cut off power in case of emergency;

- Please ensure that the product is firmly secured on the wall or ceiling.

⚠ Notes

- This product is powered by an external power adapter. For the power disconnection device of this product, users should choose an environment where it is easy to plug and operate.

- If the product is not working properly, please contact the dealer or the nearest service center, and do not disassemble or modify the product in any way. (We will not take any responsibility for the problems caused by unconfirmed modification or maintenance);

- Please avoid installing the product in a vibration or shock environment, and keep the product away from electromagnetic interference (ignoring this may damage the product);

- Do not touch the heat dissipation parts of the product directly with your hands to avoid burn;

- Do not install the product indoors in an environment where water or other liquids may be drenched;
- The product should be stored in a dry environment without corrosive gas, avoiding direct sunlight;
- Please do not use the product in extremely hot, cold, dusty, corrosive or high humidity environment. Please refer to the parameter list of the product for specific temperature and humidity requirements.
- Avoid pointing the lens directly at strong light (such as the sun or laser beam, etc.), otherwise the image sensor will be damaged;
- Keep the ventilation around the product smooth and avoid heat accumulation;
- Products accessing the Internet may face network security problems, so please strengthen the protection of personal information and data security;
- Please contact us in time if you suspect that the product may have network security risks;
- Please take good care of your username and password;
- Please keep all the original packaging materials of the product properly. When there is any problem, please use the packaging materials to pack the product and send it to the agent or return it to the manufacturer for treatment. Accidental damage in transport caused by non-original packaging materials shall be borne by the user;
- Please do not turn the camera by hand after power-on;
- Please plug and unplug the Micro SD card only after disconnecting the power supply.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ -Reorient or relocate the receiving antenna.
- ▶ -Increase the separation between the equipment and receiver.
- ▶ -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ -Consult the dealer or an experienced radio/TV technician for help.

RF warning:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
