

Product Details Introduction

- 1 Power button
- 2 TYPE-C output/input port
- 3 Digital display battery indicator light
- 4 Invisible bracket
- 5 TYPE-C comes with an output line
- 6 TYPE-C comes with an output line
- 7 Magnetic suction wireless charging and discharging area
- 8 Wireless charging and discharging area of magnetic watch

Mobile power supply parameters

Capacity:38.5Wh(10000mAh/3.85V)Rated Capacity: 6100mAh
Type-C Input:5V=3A,9V=2A,12V=1.5A
Type-CI Input:5V=3A,9V=2A, 12V=1.5A
Type-C output:5V=3.9V=2.22A,10V=2.25A,12V=1.67A
Type-CI Cable output:5V=3A, 9V=2.22A,10V=2.25A,12V=1.67A
Type-C2 Cable output:5V=2.4A
Watch Wireless output:2.5W(Max)
Wireless output:5w, 7.5w, 10w, 15W(Max)

Power display

Click the button to turn on the digital indicator light to observe the remaining power of the mobile power supply

When the mobile power supply is low, please recharge the power supply

Please note that if you do not use this product for a long time, please maintain the remaining battery level of the power supply to avoid damage to the battery cells caused by prolonged feeding, which may affect normal use

Charging the mobile power supply

- (A) Turn on the mobile power switch and place the wireless charging function smartphone or device in the wireless charging and discharging area of the mobile power to start charging

Charging the mobile power supply

Connect the AC charger with a USB charging cable to charge the mobile power supply

Safety precautions

To prevent fire and combustion, please do not open, crush, disassemble or dispose of it
Do not store the battery above 50 ° C or in a fire
Please use according to the manufacturer's instructions

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
