Tips

- ① Keep this manual for reference .
- ② For first time use, fully charge glasses .
- ③ Do not wipe dirty lenses directly. Wet lenses then use a microfiber or soft cloth to gently wipe clean.

Caution

- ① Do not dismantle, repair, refit or modify this product for any reason. Tampering may cause fire, or complete damage to the product.
- ② Do not touch or immerse product in any liquid.
- ③ Do not expose glasses to sun or heat which could age or deform them.
- ④ . Please do not place the magnetic end of the charging cable near metal objects to prevent short circuits.

Important safety information

Before using this device, please read all safety information to ensure correct and safe use.
The use of power supplies and chargers that are not certified by national safety regulations may cause fire, explosion or other hazards.
Please use accessories approved by this manufacturer and compatible with this model.
Please use the device in the temperature range of -20°C to 45°C, and store it and its accessories in the temperature of -20°C to 45°C degrees Celsius. When the ambient temperature is too high or too low, device faults may occur.
The device uses non-removable built-in battery. Please do not replace the battery yourself to avoid damage to the battery or device.
When charging completed, please disconnect the charger from the device and unplug the charger from the power socket.
Please do not disassemble, impact, squeeze or put the battery into the fire. If there is serious expansion, please do not use any more.
Please do not place the battery in a high temperature environment. Overheating may caus explosion.
Please keep the device dry.
If the device or any other component can not work properly, please do not repair by yourself.
When connect with other devices, please refer to the manual for the connection method. And please do not randomly connect incompatible devices.

To avoid hearing damage, please do not use high volume for a long time .

Warning

Please comply with the relevant laws and regulations, and do not use in the following environment:

Such as gas stations, oil depots, chemical warehouses and other storage of flammable and explosive oil and gas or chemical environment, prohibited to use.

Please do not use this device in hospital operating rooms, emergency rooms, intensive care units, etc. In order to avoid interfering with the operation of the medical device, please keep the device away from the pacemaker, hearing aid, cochlear implant, etc. when using the device. Please keep more than 15cm between this device and the pacemaker.

To use this device near a personal medical device, consult your physician and device manufacturer. Please comply with all safety warnings and regulations regarding the use of this device while driving.
To avoid lightning strikes, please do not use it outdoors during thunderstorms.

Please do not use the charger in places with high humidity such as the bathroom, otherwise it will cause electric shock, personal injury, fire and damage to the charger.

Please obey with applicable laws that expressly prohibit its use in any environment.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user' s authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

RF warning:
The device has been evaluated to meet general RF exposure requirement.
