OPEN AND CONNECT

The diagram illustrates the steps to connect a Bluetooth device to a Windows 10 laptop. It shows a smartphone and a laptop, both with Bluetooth turned on. A charging case for headphones is shown with a power button and a Bluetooth symbol. A settings window on the right shows the Bluetooth menu with 'My equipment' listed as 'Connected'. A pairing window at the bottom shows the 'CONNECT' button highlighted.

DUAL CONNECTION + SYNCHRONIZATION

The diagram illustrates the 'DUAL CONNECTION + SYNCHRONIZATION' setup. It is divided into two sections: 'stereo mode' and 'Mono mode'. In 'stereo mode', two separate speakers are shown, each with a 'DUAL' label and 'L' or 'R' indicators. In 'Mono mode', a single speaker is shown with a 'DUAL' label and 'L/R' indicators. A vertical line separates the two modes. A small circular logo with a stylized 'Z' is located in the top right corner.

TOUCH COMMAND

TOUCH COMMAND

Legend:

- Click 1 time
- Click 2 time
- Click 3 time
- Hold down for 3 seconds

Left Earbud (L) Functions:

- Active noise reduction (Red dot): Hold down for 5 seconds
- Environmental awareness (Grey dot)

Right Earbud (R) Functions:

- Free call (Grey dot)

Touch Command Functions:

- Pause/play
- Previous song
- Next song
- Volume plus
- Volume down
- Answer a call
- Voice assistant
- Reject a call

Hold down for 5 seconds

TOUCH COMMAND

The diagram illustrates a smart home control interface. At the top, a large white box contains the text "TOUCH COMMAND". Below this, a white box shows a touch command icon (a square with rounded corners and a small circle) and the text "Press 1 time" and "Slide". In the center, a white line drawing of a smart home device (a square with rounded corners and a small circle) is shown. Below the device, a white line drawing of a smart home device (a square with rounded corners and a small circle) is shown. At the bottom, a white line drawing of a smart home device (a square with rounded corners and a small circle) is shown. The interface includes a media player with a play button, a volume slider, and a noise reduction control with buttons for OFF, ANC, and TRAN.

AUTO PLAY/PAUSE

SQUELCH MODE

Squelch Mode is a feature that allows you to enjoy music without the noise reduction. It is activated by holding the touch sensor for 5 seconds. The mode is indicated by a music note icon on the touch sensor. The mode is active when the touch sensor is lit up. The mode is deactivated when the touch sensor is not lit up.

Squelch Mode On:

- Active noise reduction (checked)
- Music note icon (checked)
- Touch sensor (checked)

Squelch Mode Off:

- Active noise reduction (checked)
- Music note icon (checked)
- Touch sensor (checked)

SMART CHARGING BOX SETTINGS

CHARGING

The diagram illustrates the charging process. On the left, a power source (represented by a lightning bolt icon) is connected to a cable. The cable's USB-A connector is plugged into the bottom of the device. A dashed line indicates the internal connection path from the port to the battery. On the right, a separate view shows the device's internal battery compartment with four cells. A dashed line connects the battery compartment to a battery icon, indicating the charging status.

LED INDICATOR MODE

The diagram illustrates the LED Indicator Mode interface. On the left, a small electronic component is shown with a circular LED indicator. A dashed line connects this indicator to a rounded rectangular box on the right. Inside this box, there are three status indicators, each consisting of a small icon and a text label:

- The top indicator shows a blue starburst icon and the text "Bluetooth is connecting".
- The middle indicator shows a solid blue circle icon and the text "Bluetooth connected".
- The bottom indicator shows a blue starburst icon with a diagonal line through it and the text "Bluetooth not connected".

Each of these three indicators is preceded by a small Bluetooth symbol. In the top right corner of the overall diagram, there is a circular icon containing a sun-like symbol with rays.

OPEN AND CONNECT

TEST ITEM	MAKE CLEAR
Power on	Open the cover for automatic boot pairing (you can also manually start by pressing the power button for 3S).
Power Off	Hold down the power button for 5S or enter the warehouse to shut down
TWS self-pairing mode	Automatic TWS pairing on the first boot
Phone pairing mode	Open the cover and turn on automatically. TWS automatically pairs, actively enters the pairing state, and the phone opens the Bluetooth device search by pairing name (V8)

The image shows the Bluetooth logo on the left, which consists of a blue circle with a white stylized 'B' inside, followed by the word 'Bluetooth' in a bold, black, sans-serif font. To the right of the logo is a black equilateral triangle with a white exclamation mark inside, serving as a warning symbol.

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
