# Product Manual

<div>  <h2>Product Manual</h2> </div> <div> <p><b>Power on/off:</b> Long press the power button for more than 2 seconds, the screen will light up to the translation interface, and you can use it normally. Long press the power button for more than 2 seconds, the screen will pop up restart/shut-down icon is displayed on the screen. Select the restart icon to restart the device.</p> <p><b>Restart:</b> Press and hold the power button for more than 2 seconds. The restart/shut-down icon is displayed on the screen. Select the restart icon to restart the device.</p> <p><b>Back key:</b> Press the Return key to return to the previous function.</p> <p><b>Volume:</b> To adjust the volume, click the side + button to increase the volume; Click the Side-button to reduce the volume to the lowest or mute mode.</p> <p><b>Voice key:</b> Press and hold the voice input key on the host (the left voice key corresponds to the language on the left of the home page, and the right voice key corresponds to the language on the right of the home page) to enter the voice recognition state. After releasing the hand, the voice is automatically recognized and analyzed, and automatically translated into the target language and played (the voice playback mode depends on the setting).</p> </div>	<div>  <h2>Online translation</h2> </div> <div> <p>Connect to WiFi, select online translation, and long press the mother tongue translation key or foreign language translation key to realize mutual translation between 138 countries, as shown in the figure below:</p>  <p><b>Warm reminder:</b></p> <ol style="list-style-type: none"> <li>1. This function needs to be used in a network environment.</li> <li>2. Click the translation text on the display screen to select the language repeatedly.</li> <li>3. The native language input key corresponds to the translation language on the left, and the foreign language input key corresponds to the right language.</li> <li>4. The clearer the voice input is, the more accurate the recognition is. The maximum input time is 1 minute.</li> </ol> </div>	<div>  <h2>Phone translation</h2> </div> <div> <p>Open Chrome, Paypal, wechat and other software on the mobile phone, scan the mobile translation QR code on the translator, and you can perform mobile translation.</p>  <p><b>Warm reminder:</b></p> <ol style="list-style-type: none"> <li>1. This function can be used in an environment with or without a network.</li> <li>2. Click the icon in the upper right corner of the display and select the recorded question to see the translated content.</li> <li>3. The clearer the voice input is, the more accurate the recognition.</li> </ol> </div>	<div>  <h2>Smart recording</h2> </div> <div> <p>Select the language you want to record, and translate into 13 source languages and 138 online languages. Click the record icon on the left and right voice buttons to record the translation.</p>  <p><b>Warm reminder:</b></p> <ol style="list-style-type: none"> <li>1. This function can be used in an environment with or without a network.</li> <li>2. Click the icon in the upper right corner of the display and select the recorded question to see the translated content.</li> <li>3. The clearer the voice input is, the more accurate the recognition.</li> </ol> </div>	<div>  <h2>Music Play</h2> </div> <div> <p><b>Support local music and TF card music play.</b></p> </div>																																									
<div>  <h2>Offline translation</h2> </div> <div> <p>Offline translation module can be used without network environment. Offline translation languages are available in 17, as shown below:</p>  <p><b>Warm reminder:</b> This function can be used without a network.</p> </div>	<div>  <h2>Group translation</h2> </div> <div> <p>Other users of the same AI translator can be invited to build a multi-machine group to achieve cross-regional and cross-language communication.</p>  <p>Online in 138 languages, 117 people can communicate in the same group at the same time.</p> </div>	<div>  <h2>Simultaneous interpretation</h2> </div> <div> <p>Select the language you want to translate, click the sound recording key to enter continuous sound recording mode, and click the sound recording key again to translate the recorded content.</p>  </div>	<div>  <h2>Exchange rate conversion</h2> </div> <div> <p>Select the type of currency to be converted, enter the number to be converted, and click the conversion icon in the upper right corner to convert the currency.</p> </div>	<div>  <h2>Multimedia</h2> </div> <div> <p>Includes world clock, music, video recording and other functions.</p> </div>																																									
<div>  <h2>Photo translation</h2> </div> <div> <p>Click the photo translation icon, select the target language to be translated, point the window of the screen at the content to be translated, click the photo function and wait 2-3 seconds for the content to be translated. (Model with this feature: S85)</p>  <p><b>Warm reminder:</b></p> <ol style="list-style-type: none"> <li>1. This function can be used in an environment with or without a network.</li> <li>2. The clearer the photo, the more accurate the translation.</li> <li>3. Click the picture in the lower left corner to delete the picture.</li> </ol> </div>	<div>  <h2>Language learning</h2> </div> <div> <p>Select the language you want to translate, press and hold the voice recording key to record the voice, and click the icon on the right side of the screen to enter the follow-up mode.</p> </div>	<div>  <h2>ChatGPT</h2> </div> <div> <p>Click the + icon in the lower right corner of the screen to create a dialogue, hold down the sound recording key to enter the content, release the key and wait for 2 seconds, the AI voice assistant will reply to your input content.</p> </div>	<div>  <h2>Battery charging and other operations</h2> </div> <div> <p>When charging with a charger: Use the USB cable in the accessory for charging. The charging time is different when charging with a connector or when charging with a computer.</p> </div>	<div>  <h2>Network link</h2> </div> <div> <p><b>Warm reminder:</b> Some applications need to be connected to the network. <b>Setting method:</b> Click 1 on the main interface to set 1, start the WiFi function, find the WiFi network to be connected and enter the password to connect. After the connection is successful, the WiFi icon will be displayed in the status bar, and you can use it freely.</p> </div>																																									
			<div>  <h2>Non-warranty clause</h2> </div> <div> <ol style="list-style-type: none"> <li>1. Three packages have expired.</li> <li>2. Damage caused by force majeure.</li> <li>3. Performance failure caused by human damage.</li> <li>4. Unauthorized maintenance/misuse/collision/negligence/abuse/liquid intake/accident/alteration/incorrect use, or tearing/altering of the label.</li> </ol> </div>	<div>  <h2>Hazardous substances declaration for electronic information products</h2> </div> <table border="1"> <thead> <tr> <th rowspan="2">Part name</th> <th colspan="6">Poisonous or harmful substance or element</th> </tr> <tr> <th>Lead (Pb)</th> <th>Mercury (Hg)</th> <th>Cadmium (Cd)</th> <th>Hexavalent Chromium (Cr (VI))</th> <th>Polybrominated biphenyls (PBB)</th> <th>Polybrominated diphenyl ethers (PBDE)</th> </tr> </thead> <tbody> <tr> <td>Plastic shell</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> </tr> <tr> <td>Internal cable</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> </tr> <tr> <td>Circuit board</td> <td>×</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> </tr> <tr> <td>Data cable</td> <td>×</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> <td>○</td> </tr> </tbody> </table>	Part name	Poisonous or harmful substance or element						Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent Chromium (Cr (VI))	Polybrominated biphenyls (PBB)	Polybrominated diphenyl ethers (PBDE)	Plastic shell	○	○	○	○	○	○	Internal cable	○	○	○	○	○	○	Circuit board	×	○	○	○	○	○	Data cable	×	○	○	○	○	○

FCC Caution:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference,  
and (2) this device must accept any interference received,  
including interference that may cause undesired operation.

Any changes or modifications not expressly approved by  
the party responsible for compliance could void the user's  
authority to operate the equipment.

NOTE: This equipment has been tested and found to  
comply with the limits for a Class B digital device, pursuant  
to Part 15 of the FCC Rules. These limits are designed to  
provide reasonable protection against harmful interference  
in a residential installation. This equipment generates, uses  
and can radiate radio frequency energy and, if not installed  
and used in accordance with the instructions, may cause  
harmful

interference to radio communications. However, there is no  
guarantee that interference will not occur in a particular  
installation. If this equipment does cause harmful interference  
to radio or television reception,  
which can be determined by turning the equipment off and on,  
the user is encouraged to try to correct the interference by one  
or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different  
from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician  
for help.

The device has been evaluated to meet general RF exposure  
requirement. The device can be used in portable exposure  
condition without restriction.
