## Re-insert pod for battery status

### 3 Green pulses

Sufficient battery

### 3 Orange pulses

Low battery

No light  
Empty battery

**WARNING**

Keep your Aircraft Battery and all its components out of the reach of children and pets. Do not disassemble or tamper with your Aircraft Battery. Do not use your Aircraft Battery if you cannot identify all its components or if you cannot find the correct replacement parts. Do not use your Aircraft Battery if you cannot find the correct replacement parts. Do not use your Aircraft Battery if it appears to be damaged, broken or is operating abnormally. Do not use your Aircraft Battery if it is unusually hot to touch. Do not expose your Aircraft Battery to extremely high or low temperatures. Do not store your Aircraft Battery in a location where it is exposed to moisture or rain. Do not use your Aircraft Battery if it becomes immersed in any liquid. Do not place your Aircraft Battery in a dishwasher, washing machine or dryer. Do not use your Aircraft Battery if it is connected to a power supply that is certified by a recognized testing laboratory to avoid potential battery malfunction, explosion or fire. Your Aircraft Battery is not for recycling. Do not attempt to recycle, reuse, or dispose of in accordance with local requirements to avoid potential injury and/or environmental harm. Do NOT dispose of any of your Aircraft Battery in a fire as it could cause an explosion or serious injury.

These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that the use of this equipment will not cause harmful interference. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment or devices
- Connect the equipment to an outlet other than the receiver's
- Consult a dealer or an experienced radio/TV technician for assistance

This device complies with Part 15 of the FCC Rules and with Industry Canada Rules. Any changes or modifications to the equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**CAUTION**  
RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT  
TYPE, DISPOSE OF USED BATTERIES ACCORDING TO THE  
INSTRUCTIONS.

DO NOT BRING PODS ON AN AIRPLANE  
DO NOT LEAVE PODS IN A HOT VEHICLE  
DO NOT LEAVE PODS EXPOSED TO SUN  
STORE IN COOL, DRY PLACE

General Specification  
Product Name: AIRGRAFT  
Model Name: A3  
Dimension: 82.3 mm (Length) x 23.1 mm (Width) x 15.1 mm (Thickness)  
USB Input: 5V 500mA  
Rating: 3.8V 620mA, 2.356W  
FCC ID: 28MEH-A3  
IC: 33417-A3  
Manufacturer  
AIRGRAFT US CORP  
251 little falls drive wilmingnton new castle delaware 19080 united states

### FCC Statement

**FCC Statement**  
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### IC Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSSI(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device. The term "IC" before the certification/registration number only signifies that the Innovation, Science and Economic Development Canada technical specifications were met. This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux normes RSS d'Innovation, Sciences et Développement économique Canada. Son fonctionnement est soumis aux deux conditions suivantes :

- (1) Cet appareil ne doit pas causer d'interférences ; et  
(2) Cet appareil doit accepter toute interférence, y compris celles qui peuvent entraîner un fonctionnement indésirable de l'appareil.
