LF-YJ001-433

Ceiling Fan Remote Control

Features

- Slim and lightweight body
- Each remote control can be paired with multiple controllers

Applications

- Straight blade ceiling fan lights, invisible ceiling fan lights
- Office lighting, commercial lighting, decorative lighting, and store lighting

Main parameters

- Powered by No. 7 battery
- Wireless radio frequency

Parameter characteristics

Input and output parameters

Operatin voltage	3VDC
Operatin current	≤20mA
Standby current	≤3uA
Remote control distance	10m(Open and barrier-free)

Operating temperature and conditions

Operating temperature	-10°C - +40°C
Storage temperature	-10°C - 40°C (Without battery)
Storage humidity	45 - 75%RH(without condensation)
Operating humidity	45 - 75%RH(without condensation)
Atmospheric presssure	86 - 106KPa

Button function diagram

Remote control pairing

Ceiling fan On/Off & pairing: button(0) is the ceiling fan On/Off & pairing button. When the ceiling fan is on, press this button can turn off the fan and cancel the timing. Within 15 seconds after power-on, hold down this button for 3 to 5 seconds to pair the remote control. The buzzer will beep three times if the pairing is successful.

Function Introduction

Supplementary instructions

- 1.If not in use for a long time, please remove the battery.
2. When the remote control distance becomes short or the remote control fails frequently , replace the battery in time.
3. For indoor and dry environment use only.

Transportation and storage

1. Suitable transportation means: vehicles, boats and aeroplanes.
- 2.In transit, it is necessary to prepare awnings for rain or sun protection. Moreover, please keep civilized loading and unloading to prevent the vibration or impact as much as possible.
- 3, The storage shall conform to the standard of Class I environment . When the products have been stored for more than 6 months, please re-test them firstly. Do not use them unless they are tested to be qualified.

Attention

- 1.Please use the products according to its parameters in the specification , otherwise the products may malfunction.
2. Using any incompatible light fixtures or those that have not been certified may cause fire, explosion or other risks.
3. Man-made damage is beyond the scope of the warranty service.

Disclaimer

The above information is subject to change without notice. Errors and omission excepted. Always make sure to use the most recent release.

Federal Communications Commission (FCC) Statement.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide Reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

RF exposure statement:

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device is installed and operated without restriction.
