| <div>Solder<br/>Board-Component<br/>View 2</div> |  A photograph of a green printed circuit board (PCB) component, identified as a solder board component in View 2. The component is rectangular with a notch on the left side. It features several surface components, including a small circular component labeled 'ANT1' at the top left and a larger component labeled 'KEY ANT2' at the bottom right. The PCB is marked with '94V-0', 'E4821-A1', 'Wm25-1.0', '2x12 AB426', 'REV.1.0', and 'DC1172-K2'. The component is placed on a blue textured surface next to a metal ruler for scale. The ruler shows markings in millimeters, with a 0.5mm scale visible on the left and a 10mm scale visible on the right. |
| <div>Solder<br/>Board-Component<br/>View 3</div> |  A photograph of the same green printed circuit board (PCB) component, identified as a solder board component in View 3. This view shows the component from a different angle, highlighting the solder joints and the components on the reverse side. The component is placed on a blue textured surface next to a metal ruler for scale. The ruler shows markings in millimeters, with a 0.5mm scale visible on the left and an 8mm scale visible on the right.                                                                                                                                                                                                     |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <div>Solder<br/>Board-Component<br/>View 4</div> |  A photograph of a small, rectangular, yellowish-green solder board component. The component has several small, circular solder pads and a central rectangular cutout. It is placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 1 to 8 mm. A silver ruler with black markings is positioned horizontally below the component, showing measurements from 1 to 8 mm. The component is oriented horizontally.                                                                                         |
| <div>Solder<br/>Board-Component<br/>View 5</div> |  A photograph of a long, narrow, green printed circuit board (PCB) component. The component is populated with various electronic components, including a large yellow electrolytic capacitor, a blue electrolytic capacitor, and several smaller components. It is placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 1 to 10 mm. A silver ruler with black markings is positioned horizontally below the component, showing measurements from 1 to 9 mm. The component is oriented horizontally. |
