Wall mounting instructions

1 Detach the wall mount

Place the wall mount on the back of the CD player counterclockwise
Rotate 45 degrees to remove the wall mount vertically
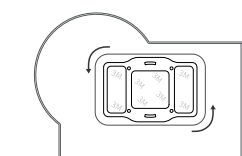

2 Tear off 3M release liners

Remove three pieces of 3M adhesive release liner from the wall mount
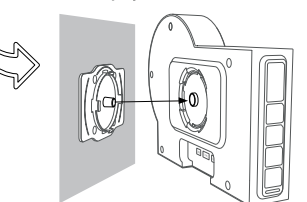

3 Sticking to the wall fixture

Attach the wall fixing frame horizontally to the target wall and press it moderately to make the adhesive surface fit

4 Hole alignment

Align and insert the round table with the raised center of the wall mount and press it into the round hole on the CD player
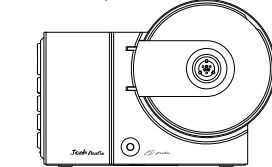

5 45 degree angle snap in

Tilt the CD player to 45 degrees, shake it lightly and press to snap into the card slot
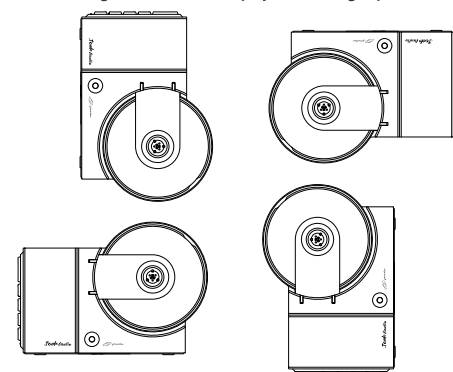

6 Complete the installation

Rotate the CD player 45° clockwise to complete the installation
(Disassembly can be completed by rotating 45° counterclockwise after installation)

Four ways to present

The card slot can be snapped into the card slot at a 45° angle in any direction, and four wall mounting methods can be displayed according to preference

Precautions

1 Read this note carefully and keep it.
2 This product is suitable for use in an indoor ventilated environment, please keep away from places with high humidity, high temperature and dust.
3 Place a disc or protect the jammed paper on the device to avoid unnecessary damage to the CD bald head assembly.
4 When replacing a CD, stop spinning completely and replace the disc.
5 It is forbidden to touch the disc with your hands or other items while the device is running.
6 Clean this product with a dry cloth only.
7 Do not place the unit near a container filled with liquids or dripping water.
8 Do not install near any heat source, such as radiators, hot air regulators, stoves, or other heat-generating instruments.
9 Protect the power cord from being stepped on or pinched, especially at plugs, sockets, and product power outlets.
10 Please use the accessories/accessories provided by the manufacturer.
11 When attaching the wall mount, clean the adhesive surface and keep the adhesive surface dry and free of dust, oil stains, moisture, etc.
12 Avoid touching the glued surface with your fingers, and it is recommended to stick the wall mount for 24 hours before installing the CD player.
13 Please do not wall hang inferior walls, water-stained walls, rough walls, peeling walls, painted walls, or cracked walls.
14 When the wall mounting height is more than 1.6 meters, please use self-tapping screws.
15 When installing the CD player, make sure that the CD player is fixed in place with the holder and that there is no loosening.

warn

If the laser beam emitted by the laser head is directly irradiated to the human body, it may cause some harm, be sure to operate the machine correctly according to this manual, and do not open the casing or repair it by yourself, so as not to be exposed to the beam.
