1. Basic knowledge

1.1 Basic operation gesture recognition

The gestures that the machine can recognize are mainly divided into short-press, long-press, drag, and slide types. The results of the same function under different gestures are different, and the user operates the machine by touching the display screen.

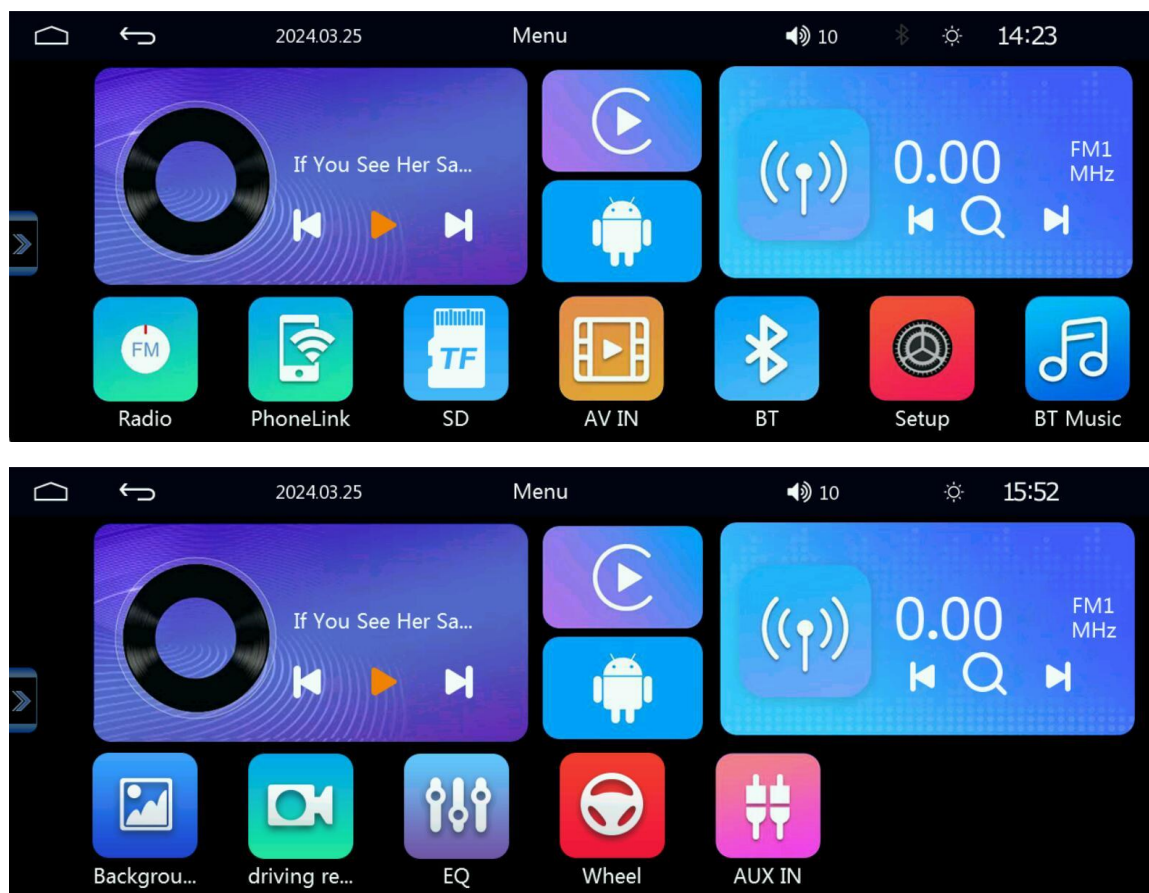

1.2 Main interface and application interface

CAR MP5 PLAYER

After the machine is started, it will jump to the main menu page by default. This page mainly displays the shortcuts of some commonly used functions. The user can also adjust the layout of the page according to personal preferences. This device has multiple screens. You can swipe left or right to switch between interfaces. When it is not the main interface, tap the icon  on the screen to return to the main interface.

2. Main functions of the main interface

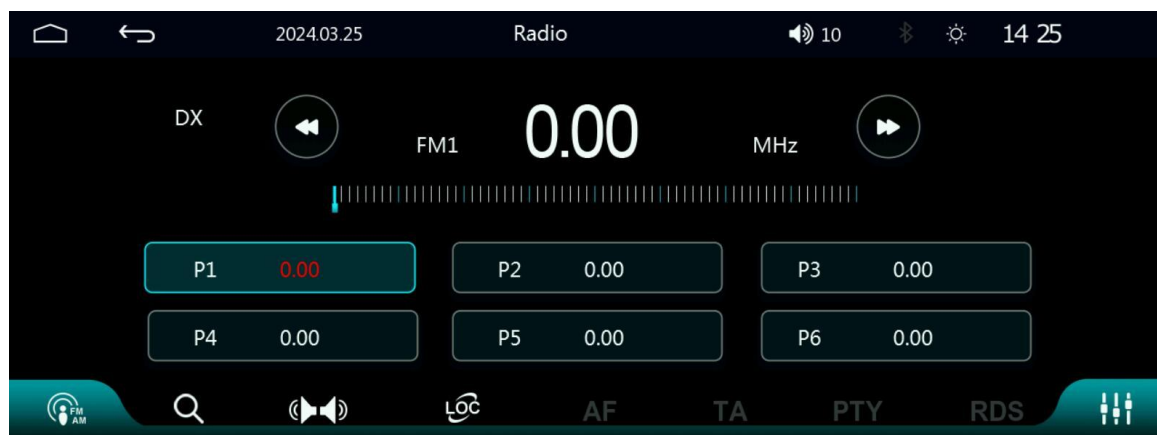

The main interface is as follows:

2.1 Radio functions:

Enter into the radio interface, the user can set the following function points according to their needs

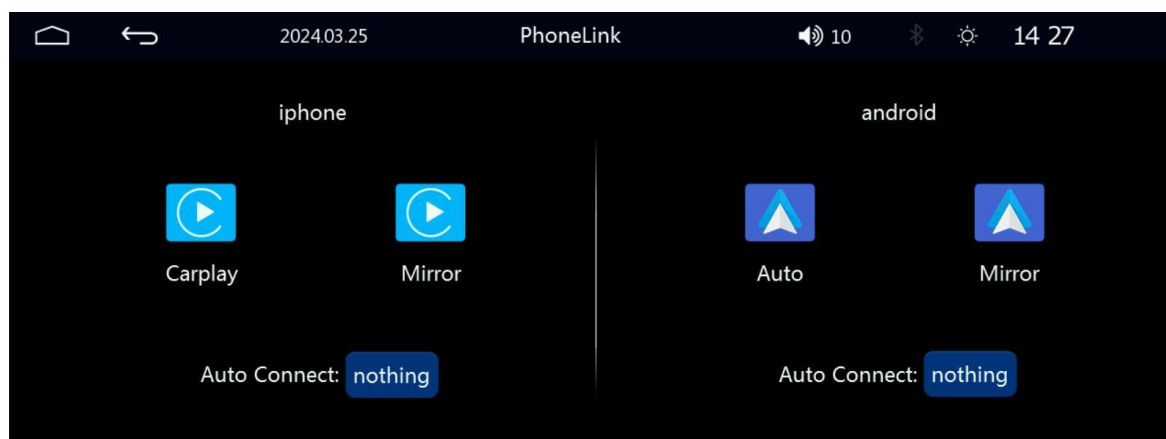

CAR MP5 PLAYER

1. Click the “Search” icon, player will automatically search and store radio stations
2. Click the icon P1, P2, P3,to switch the preset stations
3. Click the icon “◀” and “▶” to search for radio stations up and down.
4. Click the icon AF, TA, PTY to turn on/off the RDS functions

2.2 PhoneLink functions:

Connect the BT of the player with your mobile phone, then click icon “PhoneLink” in main interface to enter into below interface.

Press Carplay icon or Auto icon, the player will automatically go into Carplay or Android Auto mode.

1. The Bluetooth of the mobile phone and the Bluetooth of the car cannot be paired and connected?

If the Bluetooth connection fails, you can turn off the phone's Bluetooth, turn it on and search again, and then connect again. If it doesn't work, you can click the reset of the Bluetooth settings. After a few seconds, you can pair and connect.

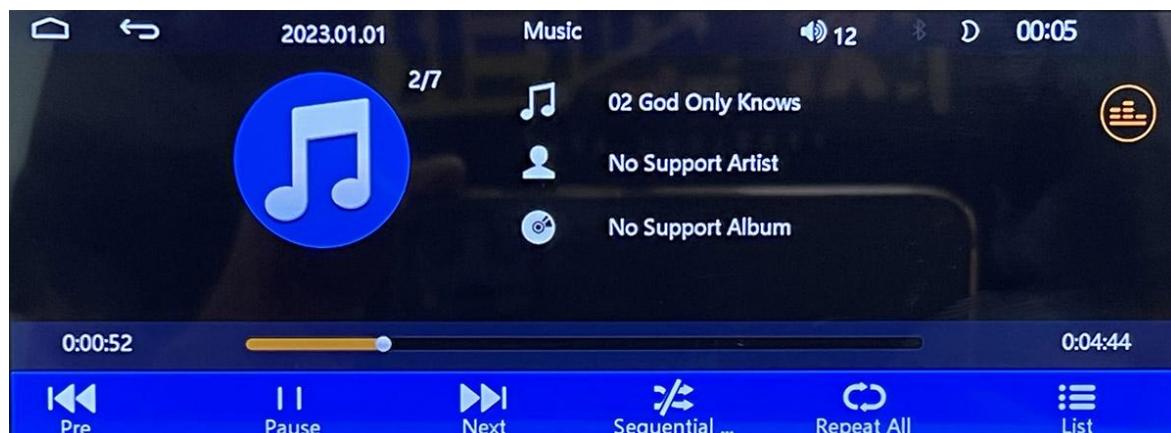

2. There is no sound from Bluetooth music?

Make sure that the paired mobile phone has volume output.

2.3 USB/SD functions:

Press icon USB or SD on the main interface to enter into playback mode. If there is no playback record, it will jump to the list interface by default.

CAR MP5 PLAYER

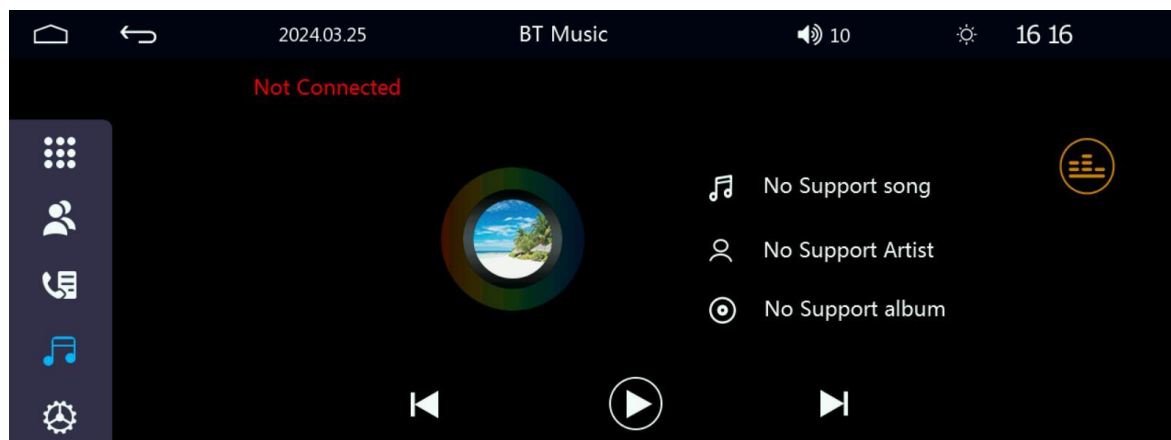

Song/video/photo list button : click this button(right side) to display all the songs/videos/photos as below. You can choose music, video or photo playing by pressing buttons on bottom of screen.

Also you can select any songs, video or photos you want by pressing the song name, video file name or photo name display on the screen.

2.4 Bluetooth function

Click the Bluetooth icon on the main interface to enter the Bluetooth interface.

Search for the Bluetooth device in the mobile phone and select it to connect after finding it. At this time, it shows that the pairing password should be input, which is generally: 0000. After inputting the pairing, it shows that the connection is successful. After the connection is successful, the Bluetooth phone function can be used.

CAR MP5 PLAYER

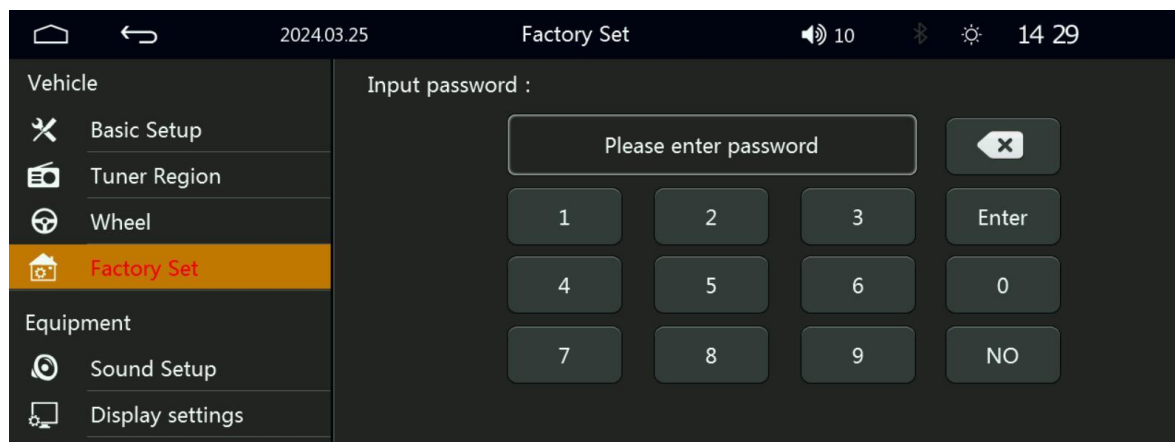

On left side, you can select menu for Bluetooth music, phone call or settings.

2.5 Setup function

Click the Setup icon on the main interface to enter the Setup. You can press button on left side to select the setup menus.

Factory set: After you select Factory set, you need to input password (113266) on right side to enter into Factory set.

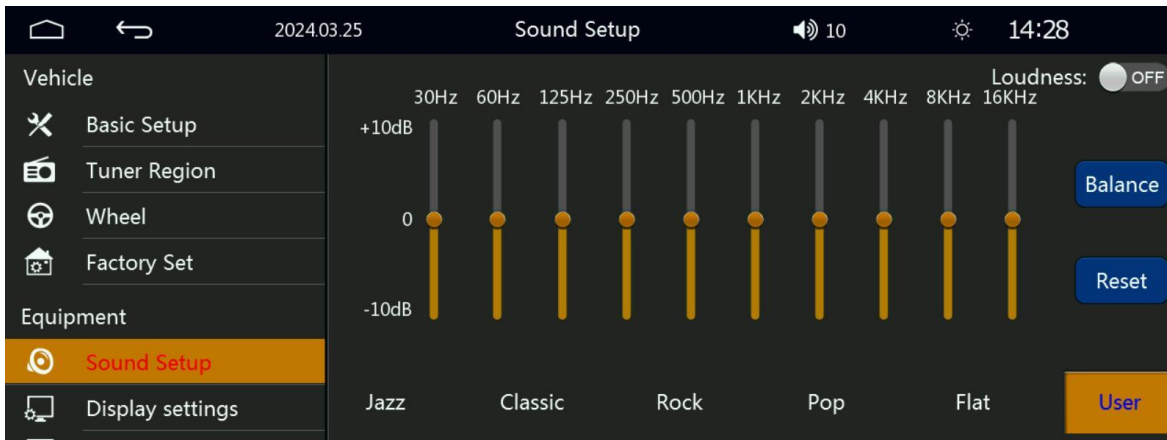

2.6 Background

CAR MP5 PLAYER

You can press USER button and then adjust the sound frequency or select the preset EQ sound(Jazz-Classic-Rock-Pop-Flat)

2.8 Wheel Cotrol

Click the Wheel button on the main interface to enter into steering wheel setting.

For cars with buttons on the steering wheel, if the buttons support learning, you can customize the function through the steering wheel. The steps are as follows:

The first step is to press and hold the button to be learned on the steering wheel.

The second step is to select the function button to be learned on the machine and press it. Only when a valid number appears below the button (the number indicates the resistance value of the button) can you let go.

2.9 FCC Statement:

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAR MP5 PLAYER

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
