

C920 Instruction manual

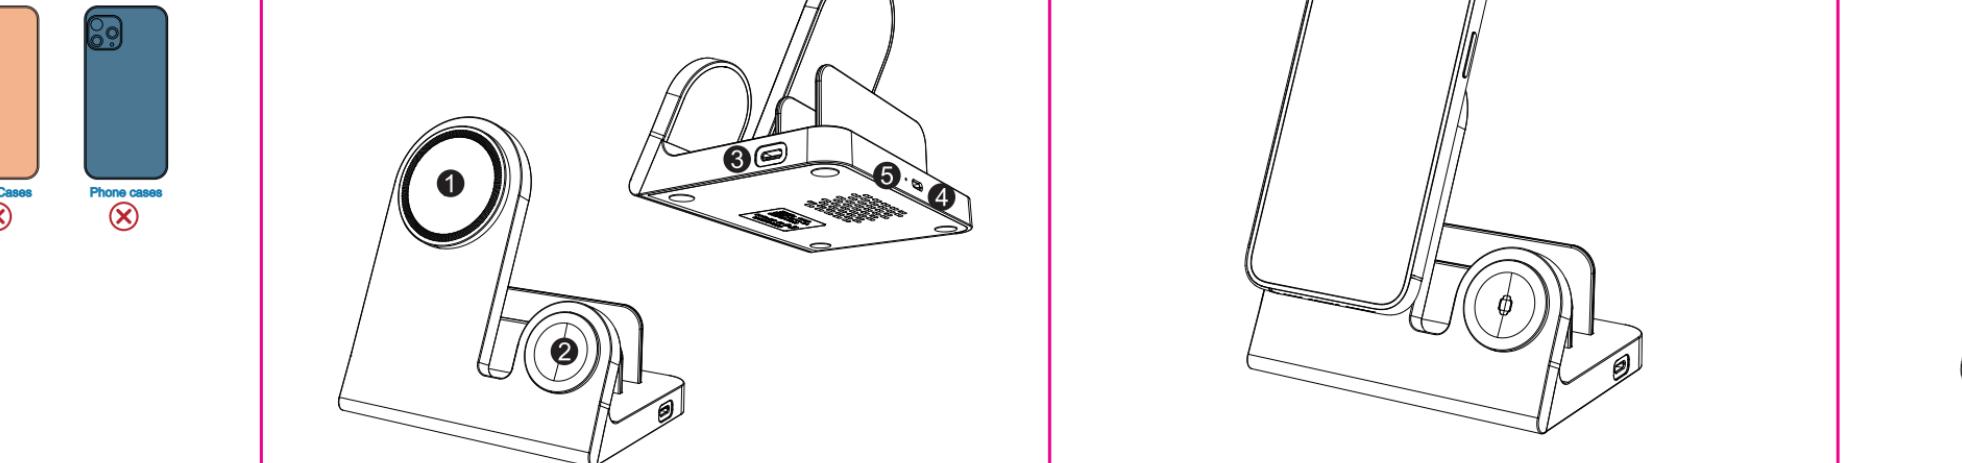

3 in 1 Magnetic Wireless Charger

Wireless Charging Guide

Please use the USB-A Adapter that comes with the package or the quick charger 2.0 or 3.0 chargers with USB-A ports are recommended.

Charging with cases

1. Introduction:

This product needs to be powered with an adapter with a power of 9V/2A and connected to the type-C port. When the button power indicator is on, it means that the power supply is connected.

- ① Mobile phone wireless charging area.
- ② Apple Watch wireless charging area.
- ③ USB-C output port.
- ④ Type-C Female.
- ⑤ Operating indicator.

2. Operating instructions:

2.1 Put the mobile phone upright in the magnetic wireless charging zone, the "Operating Indicator light" on the phone's display will confirm that it is being charged properly.

2.2 Charging the watch: Put the watch on the wireless charging area, and align the magnets; the "Charging indicator" on the watch will light up, indicating that it is being charged.

2.3 Put the mobile phone upright in the magnetic wireless charging zone, the "Operating Indicator light" on the phone's display will confirm that it is being charged properly.

2.4 Operating indicator: The blue indicator illuminates during charging or when the battery is fully charged, and it turns off when not charging. If there is a charging fault, the indicator light will flash.

2.5 Align the device at the center of the charging area when charging.

3. Attention:

3.1 When charging the device, do not use a protective case that is more than 5mm thick or has metal on it.

3.2 Operating indicator: The blue indicator illuminates during charging or when the battery is fully charged, and it turns off when not charging. If there is a charging fault, the indicator light will flash.

3.3 Align the device at the center of the charging area when charging.

4. FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC exposure statement:
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator or your body.
