Wireless Charging Guide

Please use the DC 12V/3A adapter included in the package to power the device

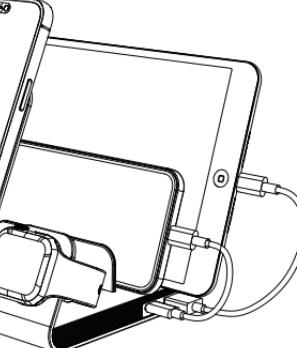

Charging with cases

1. Introduction:

① Mobile phone wireless charging area.
② Bluetooth headset wireless charging area.
③ Apple Watch wireless charging area.
④ USB-A output port.
⑤ USB-C output port.
⑥ DC power input port.
⑦ Operating indicator.

Name	5 in 1 Magnetic Wireless Charger	Model	G809
Product size	131*30*3mm	Power Supply Port	DC Socket
Input	12V---3A	Output Power	3W(Max)

2. Operating instructions:

2.1 Charging the watch: Put the watch on the wireless charging area, and align the magnets; the "Charging indicator" on the watch will light up, indicating that it is being charged properly.

2.2 Charging the watch: Put the watch on the wireless charging area, and align the magnets; the "Charging indicator" on the watch will light up, indicating that it is being charged properly.

2.4 USB Port Charging Area:

Plug the supplied USB-A/USB-C charging cable into the power port of the device; the lighting connection is three times and then goes out, indicating that the device is being charged.

2.5 USB Port charging area: Plug the matching USB-C port into the power port of the device; the output port can charge Type-C devices (e.g. Android cell phones), iPads with Type-C ports, headphones with Type-C ports, etc.

2.6 Compatibility Sheet:

2.1 Charging the phone: Place the phone in the wireless charging area of the phone and the charging indicator on the phone's display will light up to indicate that the phone is being charged properly.

2.2 Charging the watch: Put the watch on the wireless charging area, and align the magnets; the "Charging indicator" on the watch will light up, indicating that it is being charged properly.

2.7 FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

An adapter or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator or your body.
