

Mobile phone radiator with speaker (F118)

Cool down the heat and dissipation of the mobile phone and tablet

Product Diagram

Installation & Use

The radiator is fixed on the back of the mobile phone by magnetic suction, and the mobile phone does not have a magnetic attachment need to be fixed with a magnetic inducer and adhesive.

Performance parameters

Product Name: Magnetic Radiator with Speaker

Product Model: F118

Product material: ABS+aluminum+magnet+ceramic refrigeration sheet

Working power supply: 5V/3A

Product size: Φ62*62mm

Product net weight: 132g

Fan speed: 5000R/min

Executive standard: GB 4943.1-2022

*Function introduction:

Press and hold the on/off button for 3 seconds to power on, and click the on/off button in this state: Pause/Play

Plug in the data cable + charger that supports 5V/3A as required, and the refrigeration function of the device is activated.

Double-click: Turn off/on fan cooling (Note: Fan cooling mode: Every time you plug in for charging, the fan is turned on by default.)

Triple tap: Turn off/on sound and lighting, Quadruple tap: Turn off/on sound and lighting

Bluetooth is not connected and automatically shuts down for 10 minutes

Charging mode: Charging red light, full light off

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1)This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
