

EXHIBIT C - EUT INTERNAL PHOTOGRAPHS

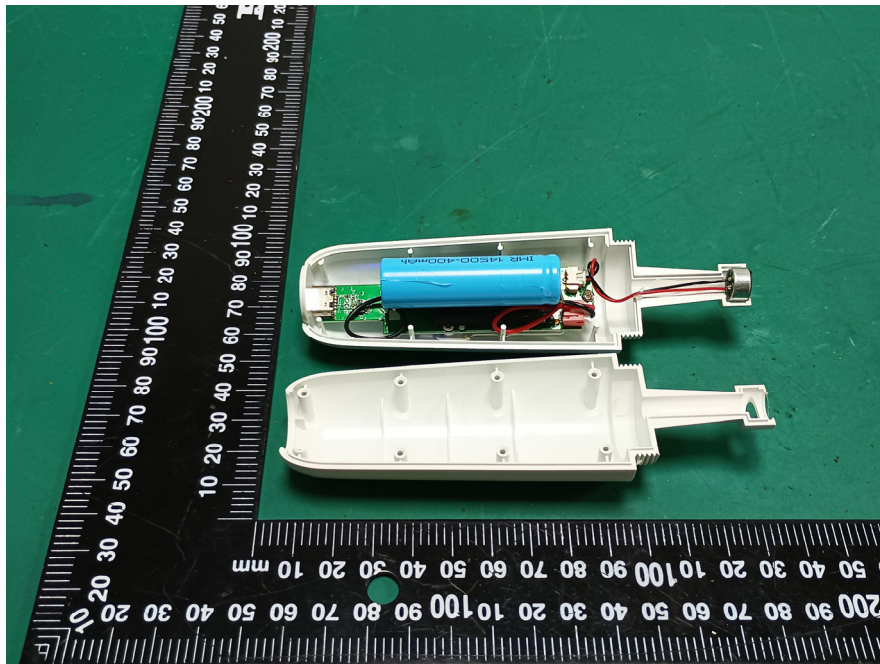

Model: SP3606-BKA

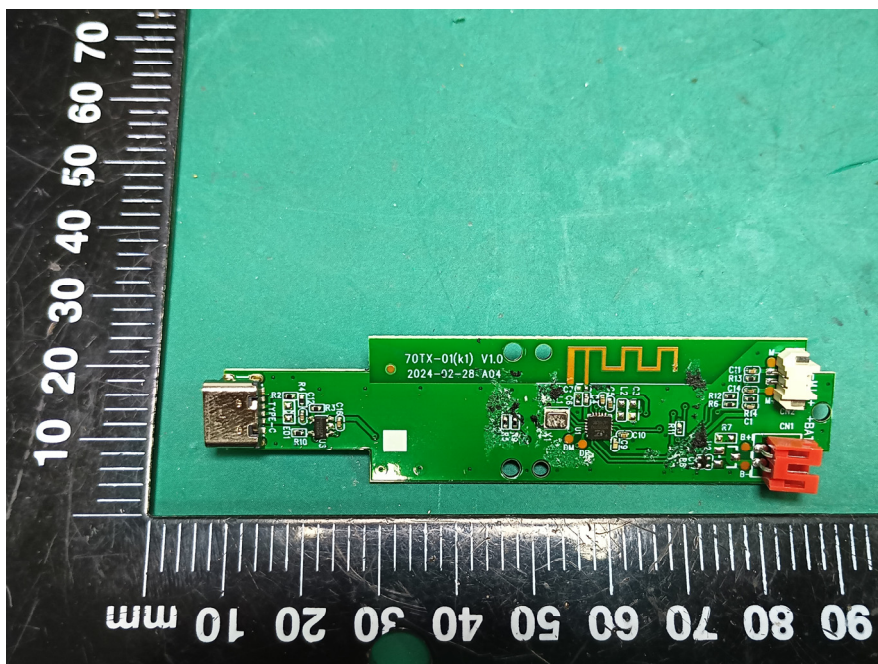

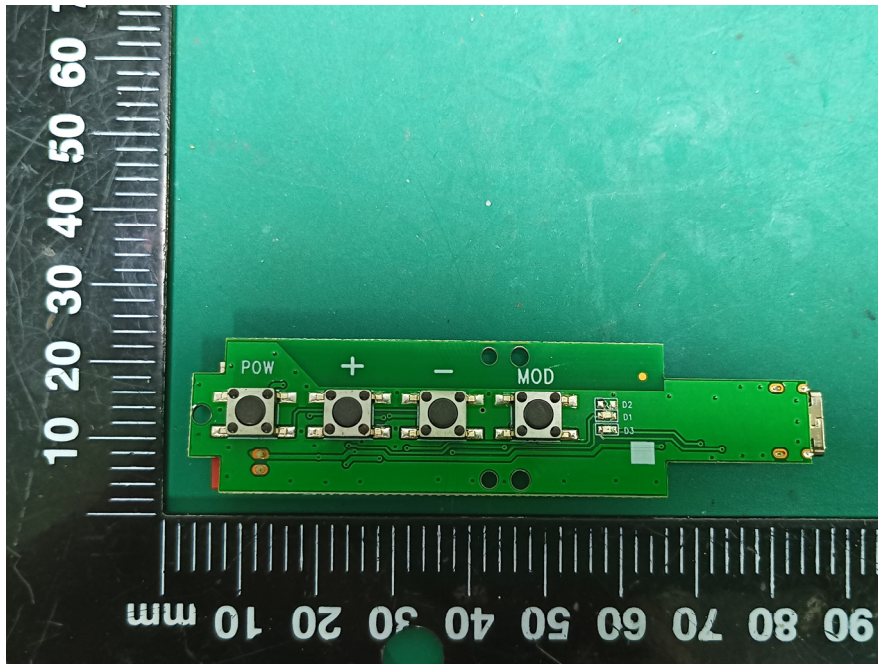

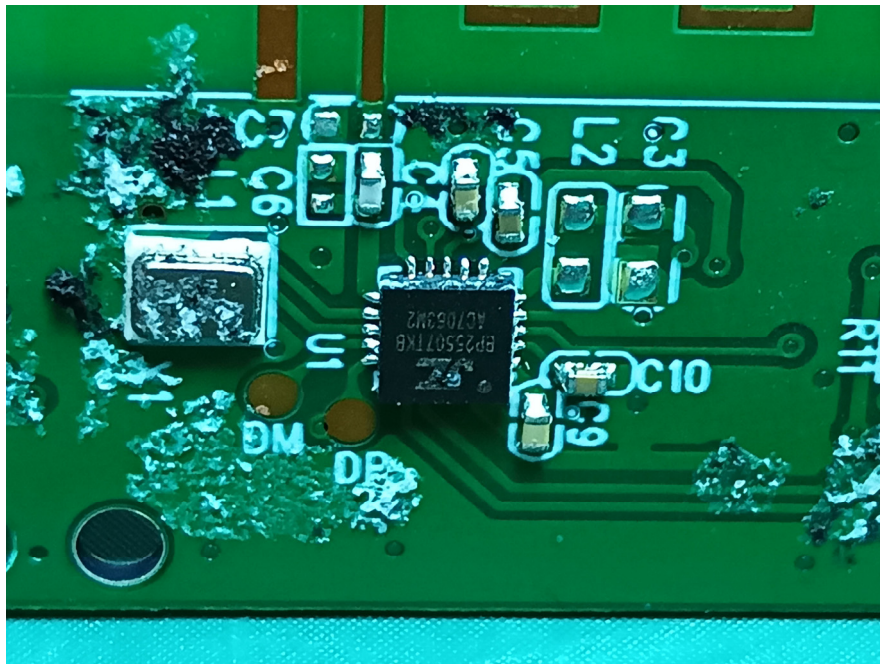

A micrograph of a green printed circuit board (PCB) with a red rectangular box highlighting a specific area. The highlighted area contains a complex, multi-layered structure, possibly a microcomponent or a specialized interconnect. Below the highlighted area, various components are visible, including capacitors labeled C1, C2, C3, C4, C5, C6, and C7, and inductors labeled L1 and L2. The PCB surface is green, and the components are mounted on it.
