This product is specially designed for motorcycle enthusiasts. it integrates advanced navigation, taxi recording, tire pressure monitoring, millimeter wave radar, entertainment and car networking services. it is designed to allow every slot rider to enjoy the thrill of wind and electricity. it can also experience unprecedented intelligence and convenience.

Product parameters

Product name	Absolute Rider motorcycle smart vehicle
Product model	Adventure A3
Product size	150*90*30mm
Screen size	5.5 Inches
Weight	1.5KG
Working temperature	-20°C+70°C
Operating voltage	9-16V

Names And Functions Of Each Part Of The Product

Host

1 Display screen
5.5 inches, 1000Nit

2 Frame
Matt - layer painting process

Metal rear shell
Aviation - grade aluminum material

MODE key
Custom switching key

5 Power key
Short press to turn off the screen
long press to shut down

Microphone

Type - C interface
Waterproof silicone plug

8 SIM card and TF card interface
Need to remove the T6 screw and take down the waterproof baffle.

Product Accessories List
