GLORYFIRE® ELECTRONIC EARBUDS USER MANUAL

BLUETOOTH

Electronic Earbud is an in-ear electronic hearing protection, which can help reduce continuous noise and impulse noise, and improve situational awareness and communication skills in severe environments. It is suitable for use in high-noise environments such as shooting training, manufacturing, and construction. The operating time is 8 hours under full power condition, and has low battery reminder function. Comes with a portable battery charging case and a retention cord, and different sizes of ear cover and foam ear tips, which can match users with different ear sizes.

SAFETY INFORMATION

Please read carefully and observe the following instructions before use. If these recommendation are not followed, may cause hearing loss or seriously affect the product use effect.
Wearing the hearing protector correctly can help reduce noise, and using it incorrectly or not wearing it may cause hearing loss or injury. If there is a disease or infection in the ear, please consult a doctor before wearing it to avoid hearing damage.

WORKING TEMPERATURE

Operating temperature range for the earbuds : -20°C to 40°C(-4°F to 104°F)
Storage temperature range (complete kit) : -20°C to 40°C(-4°F to 104°F)
Charging temperature range : 0°C to 40°C(32°F to 104°F)

FEATURES

•Multi scene switch

- Three switchable sound modes:
1. Quiet Mode: Turn off ambient sound pickup (For immersive music listening).
2. Ambient Mode: Pick up environmental sounds, capturing low, mid, and high frequencies (Default mode upon powering on).
3. Clear Voice: Pick up environmental sounds, amplify human voice and reduce noise.

•Clear voice tracking

Self and surrounding vocal tracking and optimization, and acoustic design.

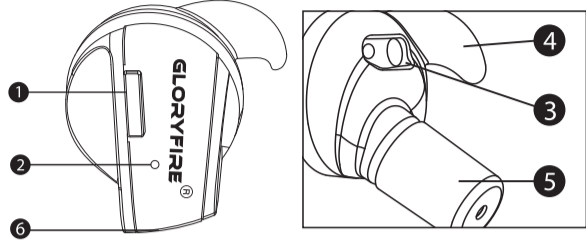

•Fast reaction core

When the quick-response gunshot sounds, the ultra-fast 0.5ms is compressed.

PRODUCT AND ACCESSORIES

- 1.A pair of electronic earbuds
(With A pair of medium ear cover & foam ear tips)
2.Portable charging case x1
3.Retention cord x1
4.Type-C data cable x1
5.A pair of small ear cover & foam ear tips
6.A pair of large ear cover & foam ear tips
7.User manual x1

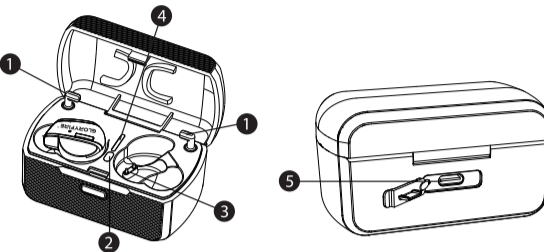

PRODUCT COMPONENTS

- 1.Power / Mode button
2.Microphone
3.Charging contacts
4.Ear cover
5.Foam ear tip
6.Indicator light

CHARGING CASE

- 1.Retention cord storage posts
2.Status button
3.Earbuds charging receptacle
4.Indicator light
(White light is charging status)
5.Type-C USB charging port

* The storage posts on sides of the charging box can be rotated 360°, and the Retention cord can be stored on the posts when not in use.

* Charge before the first use, please tear off the insulating film on the charging slot of the earbuds, and then put the earbuds into the charging box for charging about 2 hours.

CHARGING INSTRUCTIONS

Place the earbuds in the charging case, and use the Type-C data cable to connect the charging case to the power supply. When the circuit is turned on, it will automatically charge and the battery indicator will flash.
If the battery indicator does not flash, please check whether the charging case, data cable, and power supply are properly connected.
When charging is complete, the battery indicator status is always on.

*Note:

1.Make sure that the charging contact of the earbuds is pointing downwards so that it is in contact with the charging point in the socket.

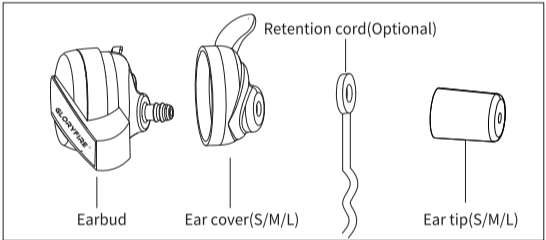

2.Please remove the stickers from the charging slots of the earbuds on both sides before use.

INSTALLATION INSTRUCTIONS

(EAR COVER, EAR TIPS, RETENTION CORD)

Ear cover and ear tips are specially designed for Earbuds. Do not insert the earbuds directly into the ear if the ear cover and ear tips are not installed.

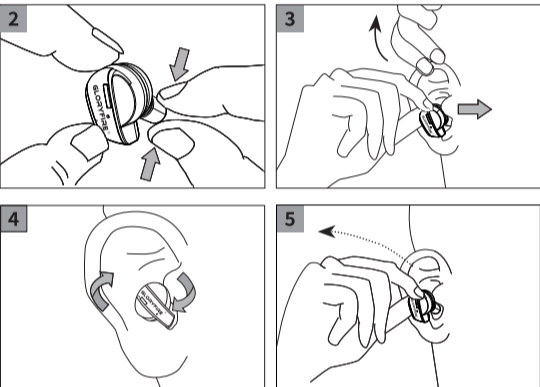

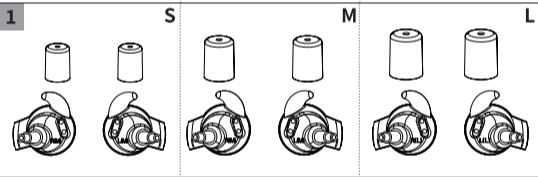

1. Wear properly sized ear cover on the earbuds according to the corresponding direction.
(Note: make sure that the fixing hole is completely consistent with the fixing post.)
2. To wear the retention cord, please fix one end of the retention cord to the ear tip stem.
3. Install ear tips on the ear tips stem.
4. Make sure that the ear tips are completely fixed on the ear tip stem.

WEAR INSTRUCTIONS

Turn off the power before wearing. Keep earbuds clean before installation.

1. Choose the right ear tips size for your ear canal.
2. Hold the earbuds to confirm that they are clean and dry, and rub the foam finely.
3. Insert the ear tips into the ear canal while gently pulling the ear upward with the other hand.
4. Rotate the ear tips in the direction of the ear canal to ensure that it is fixed in place.
5. In the case of shutdown, check that the ear tips size is appropriate.
Try pulling the Earbuds gently to make sure it won't come loose easily.
If it comes out easily, please repeat the above steps.

Do not disassemble, puncture, squeeze, heat or throw the battery into fire.
Do not use the battery if it is severely swollen or immersed in water.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

Notes: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.
Note: If shielded cables or special accessories are required for compliance, a statement must be included which instructs the user to employ them, for example, shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
