

QUICK START GUIDE

Wireless IP Camera

Thank you for using Rxview Pro. Please setup the camera by following the steps below :

1. In order to connect the camera stably, please install it in the range that could strongly accept the Wi-Fi signal of the home wireless router. Before installing the camera, please determine the installation location (flat surface or wall). When the camera is installed in a place where it is difficult to obtain Wi-Fi signal, please use a Wi-Fi extender to extend the Wi-Fi network range.

2. Connect power adapter to the camera. Please keep the wires away from children to avoid any potential danger. In order to get the best image quality, please don't touch the camera lens with your hands. Please make sure to use the matching power adapter cable, or the camera may not work properly.

1 APP Installation

1. Download the APP

- Download the "Rxview Pro" app from the App Store (iOS devices) or Google Play (Android devices).

01

- Scan the QR code below to download the APP
