Safety Notice

WARNING!

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Product Information

| | |
|----------------------|--|
| Model number | N10 Classic |
| Battery | Lithium battery 7.3v 2500mAh |
| Material | PP、 ABS、 PU |
| Suitable age | More than 36 months |
| Load capacity | Max 150 lbs |
| Size of car | 76 X 34 X 41.5 cm |
| Speed | 1.7~3.1 mph |
| Battery life | 60~90 minutes (The battery life will vary due to changes in weight and environment, please refer to the actual situation) |
| Charging time | 2~2.5 hours (The product comes with a USB charging cable, please bring your own qualified adapter) |
| Charging mode | USB charging cable [Please bring your own USB adapter that meets safety standards] |

Parts Diagram

Parts Diagram

Assembly Step

1

Align the square tube with the square notch on top of the Drive device and insert it. Take the included M5 bolt, use a screwdriver to tighten this bolt with the pre-installed nut on the Drive device, thereby securing the square tube to the Drive device.

Assembly Step

2

Pass the square tube that has been fixed to the Drive device through the circular hole in the bottom of the vehicle, and rotate the Drive device until it aligns with the direction shown in the diagram.

Assembly Step

3

Insert the steering wheel into the square tube in the direction shown in the diagram (with the steering wheel arrow pointing toward the front of the vehicle). Use the included M5 bolt and nut to secure the steering wheel to the square tube (please place the M5 nut in the corresponding hexagonal groove).

Instructions For Use

Start the vehicle:

Long press the switch for 2 seconds in the off state. When the vehicle makes a start sound and the screen displays, it means that the vehicle is on normally.

Turn off the vehicle:

In the vehicle starting state, long press the switch for 2 seconds, the screen will be turned off, the vehicle will make a shutdown sound, then the vehicle has been closed

Charging Type C port

After lifting the dustproof silicone cover, you can use the complimentary USB TypeC charging cable to charge, please bring your own adapter that meets the safety specifications

Lighting effects:

Lighting status when
fully charged

Lighting status in low battery

Lighting status when the
battery is about to run out

Instructions For Use

Bluetooth connection:

After powering on, Bluetooth will turn on automatically. Use your device to search for the Bluetooth name: “ FanttiRide N10 Classic ”. Once connected, you can play audio from your device. Each time the device is powered on, it will automatically reconnect to the last paired Bluetooth device. If your device fails to detect or connect to the Bluetooth, please check if another device is already connected, or restart the vehicle.

Adjust the volume:

Increase the volume:

When playing Bluetooth music, rotating the knob clockwise can increase the playback volume, and the light will display blue. After adjustment, the light will switch to the battery level display.

Decrease the volume:

When playing Bluetooth music, rotating the knob counterclockwise can reduce the playback volume, and the light will display blue. After adjustment, the light will switch to the battery level display.

Speed adjustment:

The vehicle is set to high speed by default at the factory. You can use a tool to reach into the circular hole in the bottom of the vehicle and adjust the internal switch to the low-speed gear.

Instructions For Use

Installation and use of the mop

Press and hold the quick-release button at the rear of the seat, then take out the mop handle, mop head, and disposable mop cloth from the storage compartment under the seat.

Press the cylindrical button on the mop handle in with your hand, insert the mop into the circular slot of the mop head, then release the cylindrical button to secure the mop handle and the mop head. Please ensure they are firmly fixed before use. Lay the disposable mop cloth under the mop head, and press the excess part onto the hook-type hook-and-loop fastener attached to the top of the mop head.

Press the square button on the mop handle in with your hand, insert the mop handle all the way into the bottom of the square slot under the vehicle body, then release the square button to secure the mop to the vehicle body. Please ensure it is firmly fixed before use. If you want to detach the mop from the vehicle body, press and hold the square button and pull the mop outwards.

Fault Analysis

| | |
|---------------------------------------|--|
| Only one wheel of the product rotates | For the safety of turning, this product is designed with a single-sided driving wheel, and the other wheels are auxiliary wheels. |
| The product fails to power on | Please open the seat and check if the battery is connected. |
| Charging time is too slow | Please check if the output current of the charger being used is only 1A. You can use a USB adapter with an output current of up to 3A. |
