REF: Attestation to the Inherent Compliance of 2BMQS-ESP32WROOM32E

Totem Inc (FRN 0036349215) hereby attests that the module with FCC ID 2BMQS-ESP32WROOM32E which is under consideration for a change in ID to **2BMQS-1** is inherently compliant with the Covered List against Kaspersky software due to its limited memory (4MB) and max clock speed (240MHz) since according to their documentation, Kaspersky software requires much greater storage capacity (1.5GB) and clock speed (1GHz).

Best regards,

Chase Lemonds
