**RF exposure statement**  
This equipment complies with the FCC radiation  
exposure limits set forth for an uncontrolled  
environment. This transmitter must not be co-  
located or operating in conjunction with any  
other antenna or transmitter.

**FCC Warning**  
This device complies with Part 15 of the FCC Rules.  
Operation is subject to the following two  
conditions:  
(1) This device may not cause harmful interference,  
and (2) this device must accept any interference  
received, including interference that may cause  
undesired operation.

Note: This equipment has been tested and found  
to comply with the limits for a Class B digital  
device, pursuant to part 15 of the FCC Rules.  
These limits are designed to provide reasonable  
protection against harmful interference in a  
residential installation. This equipment generates,  
uses and can radiate radio frequency energy and,  
if not installed and used in accordance with the  
instructions, may cause harmful interference to  
radio communications. However, there is no  
guarantee that interference will not occur in a  
particular installation. If this  
equipment does cause harmful interference to  
radio or television reception, which can be  
determined by turning the equipment off and on,  
the user is encouraged to try to correct the  
interference by one or more of the following  
measures:  
— Reorient or relocate the receiving antenna.  
— Increase the separation between the equipment  
and receiver.  
— Connect the equipment into an outlet on a  
circuit different from that to which the receiver  
is connected.  
— Consult the dealer or an experienced radio/TV  
technician for help.

NOTE 2: Any changes or modifications to this unit  
not expressly approved by the party responsible f  
or compliance could void the user's authority to  
operate the equipment.
