Smart Projector

※User Manual※

Attention

Please read this manual carefully before use and keep it for future reference.

- 1.The projector is non dustproof or waterproof.
- 2.In order to reduce the risk of fire and electric shock, do not expose the projector to rain and fog.
- 3.Please use the original power adapter. The projector should work under specified rated power supply.
- 4.When projector is working, please do not look directly into the lens, the strong light will flash your eyes and cause slight pain. Children should use the projector under the supervision of adults.
- 5.Do not cover the vents of projector. Heating will reduce the life of projector and cause danger.
- 6.Regularly clean projector vents, or dust may cause cooling malfunction.
- 7.Do not use the projector in greasy, damp, dusty or smoky environment. Oil or chemicals will cause malfunction.
- 8.Please handle with care during daily use.
- 9.Please cut off the power if the projector is out of use for long time.
- 10.Non-professionals are forbidden to disassemble the projector for testing and maintenance.

Disclaimer

This manual is general instructions. The pictures and functions in this manual should subject to the actual product. Our company is devoting to improve product performance, we reserve the right to modify product functions and interface described in this manual without notice. Please keep your device property. We are not responsible for any loss caused by wrong operation of software/hardware or repairing or any other reasons. We are not responsible for any loss of any third party claims. This manual has been carefully checked by professional engineer, please understand for any inevitable omissions.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

RF exposure compliance statement: This device has been evaluated to meet the general RF exposure requirement

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Attention:

Please do not look directly into the lens when projecting to prevent the strong light doing harm to your eyes. Kids should use the projector under the supervision of adults.
