Machine composition

USE

1. Open the glass cover.
2. Using clean water, add 120ml of water to the bowl up to fill line. *(DO NOT over fill.)*
(In case of pouring a large amount of liquid into the crack, please extract the plug and reverse the main engine so that it can be dried.)
3. Add 6-8 drops of your favorite essential oil to the water.
4. Cover the glass cap.
5. Put the glass nozzle in.
6. Plug in the power.
7. Turn on the power switch.
8. **Mist settings:** For continuous misting, tap right POWER button once. For intermittent misting, tap right POWER button twice.
9. **LED settings:** For alternating lights, tap left LIGHT button once. Continue tapping left LIGHT button to select color.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement

To maintain compliance with FCC'S RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
