Instruction manual

Please read the user manual before using this product

User Notice:

1. Disassembly and modification: This machine is composed of high-precision components. Users are prohibited from disassembling, repairing, modifying, or dropping it on their own to avoid damage to the machine. If the machine malfunctions, please contact the after-sales service center for repair in a timely manner.

2. Environment for use and storage: Do not use or store this machine in environments with high temperature, high pressure, strong magnetic field, dust, high tide, humidity, etc. Do not expose it to sunlight or immerse it in water droplets. Do not throw or shake the machine to avoid damaging its components.

3. Packaging material handling: All packaging materials, such as tape Lock buckle Plastic sheet Binding line Labels and other materials are not part of the product and are not suitable for children to play with. For the safety of your child, please handle the above packaging materials properly.

4. Maintenance and upkeep of the machine:

1. Do not scratch the surface of the machine with sharp objects. To protect the machine, it is recommended to put it back in its original packaging after use. If there is dust or water droplets splashing onto the surface of the machine, please gently wipe it with a soft dry cloth to keep the machine clean. Do not use volatile organic solvents (such as gasoline or diluents) to clean the surface of the machine. When the machine is not in use for a long time, please cut off the power supply.

4. Before and after using the machine, please check whether there are any foreign objects or damages on each interface. If there are any foreign objects, please remove them as soon as possible. If there are damages, please consult the manufacturer for repair.

Instructions for using the charger:

1. The charger is not a toy, it is only used for external power supply of the machine. Children under 2.3 years old are prohibited from using

3. Do not allow children to insert or unplug power plugs on their own.

4. The machine can only use recommended chargers that comply with national standards.

5. When cleaning the machine with cleaning solution, disconnect it from the charger.

6. Please use a safety isolation charger

7. Regularly check the wires of the machine Plug. Check if the casing and other components are damaged. If any damage is found, stop using them until they are fully repaired.

Reminder: Based on the research and development concept of this product, our company's products ensure the safety of personnel use. Therefore, we would like to remind you that:

1. This product cannot function while charging.

2. If there is no response when starting up, please turn off the device and charge it for more than 20 minutes before using it again.

When the product is charging, the red light at the back lights up, and after charging is complete, the red light turns off.

4. It is recommended to charge the product every month if it has not been used for a long time, which can ensure the normal use of the product and extend its service life.

5. Charging method: Please use a charger with an output of 5V-1000mA to connect the USB cable to the machine. USB charging time (5-8 hours).

Product Features:

1. Same screen function: making it more convenient and clear for the phone's rear camera to take selfies.

2. Strong magnetic attraction: more stable adsorption without damaging the phone.

3. System adaptation: IOS system 9.0 or above, Android 2.0 or above, HarmonyOS 3.0 or above, MagicOS 4.0 or above, and other mobile phones.

Function Description:

Power switch: toggle the switch to turn on or off the machine

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
