9. **TF card socket:** TF card playback supports audio formats such as MP3, WMA, FLAC, etc.
10. **AUX input port:** External 3.5MM audio device input port.
11. **MIC IN:** The microphone interface.

Bluetooth connection:

1. Press and hold the power button of the speaker to turn it on. The voice prompt is "Bluetooth mode" and the indicator light flashes. After successful connection, the blue light is on constantly.
2. Turn on the Bluetooth of your mobile phone and scan. After searching for the device, pair and connect. After connection, you can hear the connection success prompt tone emitted by the device.
3. After the microphone is turned on, it will automatically pair with the speaker. When not paired, the blue light flashes quickly. When paired successfully, the Bluetooth light is on constantly.

Note: Once the device is connected to the phone, Bluetooth has memory and auto-connects on power-on. To disconnect, use phone settings. For music-only, turn the mic volume to minimum.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are

designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.**
- Increase the separation between the equipment and receiver.**
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- Consult the dealer or an experienced radio/TV technician for help.**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
