

Model: B11

Radiated Emission test

The image shows a microwave test system, specifically the MW100-RFCB model by MWRFtest (迈微). The unit is white and has a front panel with various ports and controls. A blue LED is illuminated next to the 'Power' button. Two blue cables are connected to the RF1 and RF2 ports. A small circuit board with a blue LED and a black component is connected to the front panel. A label on the right side of the unit contains technical specifications in Chinese and English.
