

W-041

#### Product parameters

name	output
Two to four wireless charging data cables	Type-c/10W Lightning/12W Micro/5W iW/2.5W
Cord length	input
1200mm/2000mm	5V/3A

#### Product analysis

name	output
Two to four wireless charging data cables	Type-c/10W Lightning/12W Micro/5W iW/2.5W

Cord length	input
1200mm/2000mm	5V/3A

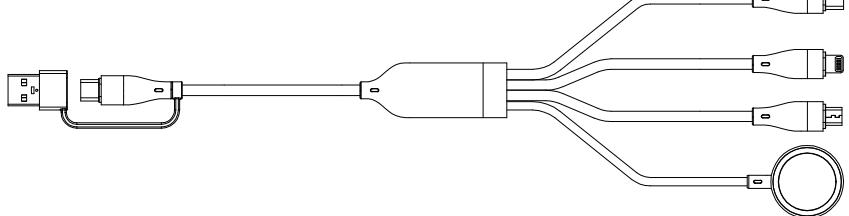

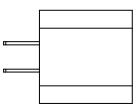

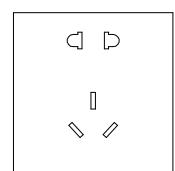

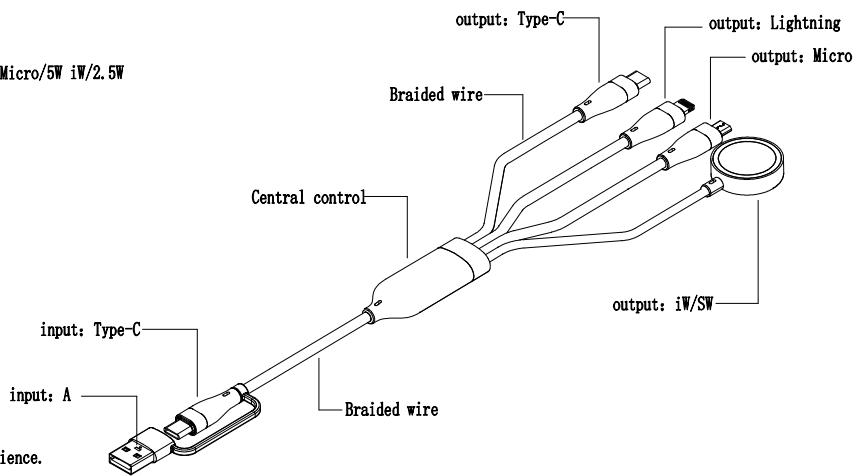

Material	Input interface
Braided wire+Aluminum alloy+TPE+ABS	USB-A/Type-C

#### Precautions:

- 1: It is recommended to use a PD20W or above power adapter for better experience.
- 2: Do not place this product on carpets, heaters, fabric materials, or expose to direct sunlight.  
Do not drop, squeeze, disassemble or puncture this product by yourself. Do not throw this product into fire, water or containing corrosive solutions.
- 3: The ambient temperature is kept at 0-35 ° C, Keep out of reach of children
- 4: Please use a dry soft cloth to clean the surface, do not clean with chemicals.
- 5: Improper use or incorrect placement of this product by the user causes the product life to be reduced or damaged, which is not covered by the warranty, please understand

#### Application Scenarios:

Input: Compatible USB-A Type-C Output Compatible: Type-C Lightning Micro iW/SW(Apple/Samsung watch wireless charging)

## FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.**
