---

## P3

### • Mode
Repeatedly short press the 【Mode】 button to switch between five modes (Pairing mode / Card player / USB drive / FM radio / Auxiliary connection).
**Note:** 1. Card player mode or USB drive mode will be bypassed when card or USB drive is not detected.
2. When a card/USB drive is plugged into the speaker, it will automatically switch to the card/USB drive's relative mode.

### • Bluetooth pairing
Use the 【Mode】 button to switch to Pairing mode, which you see the word "BLUE " blinks on the display → Turn on your phone's Bluetooth → Select "WD-700" on your phone → After successful pairing, the device prompts "paired" → Bluetooth pairing successfully ("BLUE" on the display stays on)

*You can long press the **Multi-function Knob** to disconnect Bluetooth

### • Handsfree speakerphone
The handsfree speakerphone function is enabled when the device is paired with your mobile device. Press the **Multi-function Knob** to answer an incoming call. To decline a call without answering, press and hold the **Multi-function Knob** during an incoming call. To end a call, press the **Multi-function Knob** during a call.
**Note:** The user needs to face the front of the speaker, and it is better to keep the speaking distance from the "Mic" within 40cm.

### • FM radio
Press the 【Mode】 button repeatedly to enter FM radio mode. Press and hold the **Multi-function Knob** to discover stations automatically stations. Discovered stations will be saved automatically. Press the 【◀】 or 【▶】 button to switch channels. Press the **Multi-function Knob** to mute and press again to unmute.
**Note:** Pull and expand the antenna when using the FM radio.

### • TF Card mode
Prepare a blank TF card (32GB or less) and save the songs (MP3 / WAV recommended) into the card. Then insert the card into the TF slot of the device. The device will automatically play the music in the card. Press the 【◀】 or 【▶】 button to switch the songs in the TF card. Press the **Multi-function Knob** to play / pause the music.
**Note:** 1.Too many files or folders stored in the TF card may prevent the device reading the songs in the card.
2. The speaker automatically switches to other mode if there are no songs in TF card.
3. Do not store other files except music files (MP3, Wav) in the TF card to avoid music reading failure.

### • USB mode
Prepare a blank USB Drive and save the songs (MP3 / WAV recommended) into the USB Drive. Then insert the USB Drive into the USB port of the device. The device will automatically play the music in the USB Drive. Press the 【◀】 or 【▶】 button to switch the songs in the USB Drive. Press the **Multi-function Knob** to play / pause the music.
**Note:** 1.Too many files or folders stored in the USB Drive may prevent the device reading the songs in the USB Drive.
2. The speaker automatically switches to other mode if there are no songs in TF card.
3. Do not store other files except music files (MP3, Wav) in the USB Drive to avoid music reading failure.

### •AUX-In mode
Please connect the AUX cable into AUX In jack of the WD-700, and connect the other end to an audio source. Press the 【Mode】 button repeatedly to switch to AUX Mode. You can short press the **Multi-function Knob** to mute, and press again to unmute the speaker.

### • Wireless charging (Optional function only available in wireless charging version)
Connection to a fast charging plug is required to power the wireless charging function. After the power is connected, place your mobile device on the top of the powered WD-700. Make sure your mobile device is centered according to the wireless charging icon for best wireless charge efficiency. You may try to adjust the position of your mobile device if charging is not stable. The wireless charge led indicator 【((•))】 lights up when charging.

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the followingmeasures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.
