Bluetooth Connectivity:

- Turn the speaker on. Its LED indicator blinks white until the pairing is done
- Activate the phone's Bluetooth function and search for "H5". As soon as the speaker gets selected and paired by you, the connection gets indicated by a sound prompt.

Note:

- The speaker can automatically reconnect to the last paired device
- If you are having connection troubles, then remove "H5" from the list of paired devices on your phone, keep the phone closer to the speaker and try pairing again

AUX Mode:

- You can switch to AUX mode by using the AUX cable to connect the phone and the speaker, and then short pressing the Power button
- In the AUX mode, you can control the audio playback via the media device/ phone

TWS:

You can connect two H5 and virtually forge them into one speaker for a greater impact.

For TWS connection:

- Turn on both the speakers
- Press and hold on the "D" on one of the two speakers for about 2 seconds until you hear a beep
- After releasing "D", it may take a few more seconds for the speakers to connect
- Activate the phone's Bluetooth function and search for "H5" to establish pairing

Charging:

- "H5" beeps once every 10 minutes when the battery is low. After three such indications, the speaker automatically turns off
- Utilize the provided charging cable to charge the speaker
- The LED indicator turns into steady red while charging the same goes off as soon as the speaker gets fully charged

Note:

Please avoid using the speaker while it is in charge as it may decrease the battery's performance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
