FCC Warning

This device complies with part 15 of the FCC Rules.Operation is
subject to the following two conditions:
(1) this device may not cause harmful interference
(2) this device must accept any interference received,including
interference that may cause undesired operation.
Any changes or modifications not expressly approved by the
party responsible for compliance could void the user's authorit y
to operate the equipment.
NOTE:This device has been tested and found to comply with the
limits for a Class B digital device,pursuant to Part 15 of the FCC
Rules.These limits are designed to provide reasonable protection
against harmful interference in a residential installation.

This equipment generates,uses and can radiate radio frequency
energy and,if not installed and used in accordance with the
instructions,may cause harmful interference to radio communications.
However,there is no guarantee that interference will not occur in a
particular installation.If this device does cause harmful interference
to radio or television reception,which can be determined by turning
the device off and on,the user is encouraged to try to correct the
interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the device and receiver.
-Connect the device into an outlet on a circuit different from that
to which the receiver is device.
-Consult the dealer or an experienced radio/TV technician for help.

The FCC certification of this device refers to RF exposure testing performed in typical
operating conditions, where a person is no closer than 20 centimeters from the
device surface at all times, except for non-repetitive patterns with transient time
intervals in the order of a second. Only in the stated conditions, the device is shown
to fully comply with the FCC RF Exposure requirements of KDB 447498.
