

PROJECTOR

USER MANUAL

(TB)

Thank You for Choosing Us

» Safety Precautions

Please read this user manual and keep this for future use.

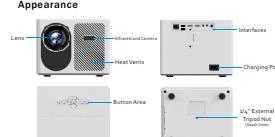

1. DO NOT install the machine where directly blown by the air conditioner, the water condensed or high temperature may cause machine failure.
2. Make sure that there is sufficient ventilation and the ventilation is not blocked, so as to avoid the accumulation of hot air in the machine.
3. Prevent clips or paper falling into the machine, and do not put any metal objects into machine. If accidentally happens, please turn off the power immediately and let qualified personnel fix it.
4. Due to the risk of leakage, do not place any liquid on the machine.
5. When transporting the projector, please use soft packaging materials to protect the lens from scratches. Please install the lens protection cover, non violent during transporting.
6. During or after the projection, the vicinity of the exhaust vent will become hot, non touch with your hands.
7. DO NOT look into the lens while the machine is powered on, it may cause serious damage to your eyes.

» Troubleshooting

Fault Phenomenon

Unable to display screen

System crashes

Screen display abnormality

Unable to turn on normally

System automatically shuts down

after displaying that the temperature is too high.

Solution

Shut down and unplug the power adapter, then restart

Turn off the phone and unplug the power adapter, turn it back on after 5 minutes, and then pair the remote control again

Remove surrounding obstacles to smooth the air flow and restart after cooling

Cooling Maintenance

Attention:

1. Do not cover the projector and do not place objects within 50cm from the front, rear, left and right of the projector to avoid affecting heat dissipation.

2. The temperature near the heat dissipation holes is high, please do not touch it during use

Enjoy Your Time with T8

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
