Charge your GUARD

Your new GUARD is rechargeable using a USB-C charging cable plugged to an a power source (not included). Please ensure your device is fully charged before first use.

How to charge your Pebblebee Guard

1. Remove the silicone plug to reveal the USB-C port.
2. Plug the USB-C charging cable and connect to a power source.
3. Once charging, the lights will show an animation to indicate it's charging. For a full charge, keep it charging for 2-4 hours.

Note: The battery cannot be removed. The Guard includes a rechargeable battery that is not replaceable. Opening or tampering with the device voids warranty.

2

Set up with Google's Find Hub or Apple's Find My

Pebblebee Guard works with the Google's Find Hub network or the Apple's Find My app to help you to locate your missing items with the help of other millions of users around the globe.

Set up Guard in the Find Hub app

To set up Guard in the Find My Hub app:

1. Make sure phone and Guard are near each other. Double-press the button on the side of your Pebblebee Guard. You'll hear a confirmation sound.
2. On your Android phone, a pop up will appear. Click to 'Connect' and follow the in app instructions to pair your Guard.
3. A confirmation sound will beep if succeeded.

How to remove an item from the Find Hub

1. Navigate to the item page on the Google's Find Hub app.
2. Click on the engine icon.
3. On the bottom of the page, tap 'Remove from Find Hub'.

Set up Guard in the Apple Find My app

To set up Guard in the Apple Find My app:

1. Make sure phone and Guard are near each other and Bluetooth is ON.
2. Open the Find My App on your iOS device. Go to the Items tab and tap to 'Add other a compatible device'.
3. Double press the button on the side of your Pebblebee Guard. You'll hear a confirmation sound. Follow the in app instructions to finish pairing.

How to remove an item from the Find My app

1. Navigate to the item page on the Find My app.
2. Tap on the device you want to remove. Scroll to the bottom of the page and click 'Remove device'.
3. Confirm to delete it.

The Pebblebee Guard™ can be used with Google's Find Hub network **OR** the Apple's Find My Device. Using Google's Find My Device network disables the use of Apple's Find My network as both cannot operate simultaneously. In order to change networks, you must reset the device to factory settings.

3

Pebblebee as a companion app

PLEASE NOTE: The Pebblebee app does not offer location services. In order to use the Pebblebee app features like software updates, phone find or Alert, you must pair your device with either Google's Find Hub or Apple's Find My app first.

Link your Guard to the Pebblebee app

1. Pair your device with the app of your choice. Either Google's Find Hub or Apple's Find my app.
2. Download the Pebblebee App for your Android or iOS and follow the in-app instructions.
3. Make sure that your phone's Bluetooth is enabled and that you've shared all permissions requested.
4. Click to add a new device. Press the button of the Pebblebee Guard 5 times (slowly). The device will beep 3 times.
5. Follow the in-app steps to finish the pairing. If an update is available, a device upgrade will be offered.
6. Enable the Pebblebee app features for that device and make sure to keep your Bluetooth always enabled.

4

Factory resetting your Guard

If you want to give your Guard to a new owner to claim it, or if you would like to switch between networks, you may need to factory reset your Guard with the following instructions:

1. Press the button 3 times, then press and keep holding for ~10 seconds.
2. Release the button before the end of the third beep. An audible confirmation will sound.
3. Double press your Guard's button to pair again. If the factory reset was performed correctly, your device will beep and light up as in pairing mode.

This will reset the device and allow you to use it with either the Google's Find Hub **OR** the Apple's Find My app.

pebblebee®

At Pebblebee we create technology for peace of mind. We are focused on designing devices that makes your life easier. We hold a range of products that includes key trackers, pet trackers, and devices that use Bluetooth, GPS and cellular connectivity to keep track of your valuables.

5

Use and care

Please ensure proper operations of your Guard.

Water Resistance

The Guard has IPX6 rating of water resistance, which means it can resist high-pressure, heavy sprays of water, but is not safe for swimming.

Environmental Requirements

Keep the Guard stored and operating in temperatures listed below. Avoid freezing weather and extremely hot temperatures to ensure best functionality.

Operating temp: 5 °F to 11 °F (-15 °C to 43 °C)

Storage temp: -1+ °F to 130 °F (-23 °C to 54 °C)

Make sure that device is dry before charging it. Charging the device when it's wet voids warranty.

6

Limited warranty

Pebblebee offers a 1 year limited warranty against product defects, effective from the time of delivery. Product defects do not include those resulting from accident, water damage, product modification, or failure to follow instructions for use. If Pebblebee deems the product defective, Pebblebee will replace the device upon receipt.

Please contact **support@pebblebee.com** if you believe your device to be defective. Our support team can identify and resolve most issues and will be happy to provide exchange directions for devices that fall within the warranty.

7

Safe electronic disposal

When your device reaches the end of their useful life, please dispose of at your local e-waste center to be recycled and properly discarded, ensuring protection of our environment. Contact your local authorities to find a reputable and certified e-waste center near you.

Regulatory & safety information

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
