FCC Warning
15.19 Labeling
requirements.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no

guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to

which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

FCC RF Radiation Exposure Statement:

1.This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment.
This equipment should be installed

and operated with minimum distance 5mm between the radiator and your body.

Product warranty certificate

The following three guarantees service can be provided by the manufacturer, which occur during the product warranty period due to non-human damage.

Within 7 days from the date of receipt, if the product is found to be defective due to human factors, the manufacturer will provide a product that is of the same model and specification.

Within 15 days from the date of receipt, if the product is found to be defective due to non-human damage, the user may choose to replace it with a product of the same model and specification.

Within 30 days from the date of receipt, if the product has performance failures that are not caused by human factors, the user can send it to the manufacturer for repair.

The following situations are not covered by the "three guarantees" service:

- Unauthorized repair, misuse, collision, negligence and abuse, liquid ingress, accident, fire, theft, fire, deformation of product labels and seals.
- Beyond the validity period of the "three guarantees" service.
- Damage caused by force majeure such as fire, flood and lightning strike.
- Product performance failures caused by human factors.
- Damage caused by failure to use in accordance with the instructions.
