

// installation steps //

1. Jack up the car.

2. Clean the dust before installing.

3. Peel off the tape cover and stick it to the car.

4. Open the inner fender and hide the extension cable.

5. Use the zip tie to tie up the extra cable and hide it.

6. Connect the strips to the controller (arrow to arrow).

7. Make the controller's power cord through the bottom of the car to the battery.

8. Connect the controller's power cord to the position of fog light. Red wire-Positive, black wire-Negative.

9. Test result. Use the buckles and screws to strengthen the firmness. Complete the installation.

Easy to install on your car

Be sure to clean mounting areas before sticking for a better hold. Use zip ties in every opportunity for more security and to tighten up any wires.

If the weather is very cold, it is recommended to blow the hot adhesive with a hair dryer before sticking it, and use as many light strip clips to fix the light strip as possible to ensure safety.

Facile da installare sulla vostra auto

Assicurarsi di pulire le aree di montaggio prima di attaccare per una presa migliore. Utilizzare cravatte zip in ogni

opportunità di maggiore sicurezza e di stringere eventuali fili.

Se il tempo è molto freddo, si consiglia di soffiare l'adesivo caldo con un asciugacapelli prima di

Fissarlo e utilizzare il maggior numero possibile di clip per strisce leggere per fissare la striscia luminosa per garantire la sicurezza.

Einfach an Ihrem Auto zu installieren

Achten Sie darauf, die Montagebereiche vor dem Kleben für einen besseren Halt zu reinigen.

Verwenden Sie Reißverschlüsse bei jeder Gelegenheit für mehr Sicherheit und zum Festziehen von Kabeln.

Wenn das Wetter sehr kalt ist, wird empfohlen, den heißen Kleber mit einem Haartrockner zu blasen, bevor Sie ihn kleben, und verwenden Sie so viele Lichtstreifenclips, um den Lichtstreifen wie möglich zu befestigen, um die Sicherheit zu gewährleisten.

Facile à installer sur la voiture

Assurez - vous de nettoyer la zone de montage avant de coller pour une meilleure fixation.

Profitez de toutes les occasions d'utiliser des attaches à glissière pour améliorer la sécurité et resserrer les fils.

S'il fait froid, il est recommandé de souffler de l'adhésif chaud avec un sèche - cheveux avant de coller et de fixer le ruban avec autant de clips de ruban que possible pour assurer la sécurité.

Fácil de instalar en el automóvil

Asegúrese de limpiar el área de instalación antes de pegar para una mejor fijación. Aprovechar todas las oportunidades para usar correas de cremallera para mejorar la seguridad y apretar cualquier cable.

Si hace frío, se recomienda soplar el adhesivo térmico con un secador de pelo antes de pegarlo y sujetar el cinturón con el mayor número posible de clips de cinturón para garantizar la seguridad.

自動車への取り付けが容易

貼り付ける前に、取り付け領域をきれいにし、よりよく固定する必要があります。安全性を高め、電線を締め付けるために、あらゆる機会にファスナーテープを使用します。

寒い場合は、貼り付ける前にドライヤーで接着剤を吹き付け、安全を確保するためにできるだけ多くのランプバンドを使用してランプバンドを固定することをお勧めします。

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement

To maintain compliance with FCC'S RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
