**EUT Housing and
Board View 1**

**EUT Housing and
Board View 2**

Solder Board-Component View 1	 A top-down view of a circular printed circuit board (PCB) component. The board is white and populated with various electronic components, including several yellow surface-mount LEDs arranged in a ring, a central black integrated circuit (IC), and various passive components like resistors and capacitors. The board is placed on a blue fabric background next to a black L-shaped ruler with white markings in millimeters and centimeters. The ruler indicates the component is approximately 100mm in diameter.
Solder Board-Component View 2	 A bottom-up view of the same circular PCB component. This view shows the reverse side of the components, including the underside of the central IC and the solder connections for the LEDs and other components. The board is again placed on a blue fabric background next to the same black L-shaped ruler for scale.
