4. The warranty is void if the product is damaged by unauthorized repair or modification.

5. The warranty is void if the product is damaged by use of non-genuine parts.

6. The warranty is void if the product is damaged by use of non-genuine accessories.

7. The warranty is void if the product is damaged by use of non-genuine cables.

8. The warranty is void if the product is damaged by use of non-genuine connectors.

9. The warranty is void if the product is damaged by use of non-genuine components.

10. The warranty is void if the product is damaged by use of non-genuine materials.

### FCC compliance statement

This device complies with the FCC rules for Class B digital devices. It does not cause harmful interference, and it is immune to harmful interference from other digital devices.

1. Do not use this device near a television or other electronic equipment.

2. Do not use this device near a telephone or other communication equipment.

3. Do not use this device near a microwave oven or other heating appliance.

4. Do not use this device near a refrigerator or other cooling appliance.

5. Do not use this device near a dryer or other laundry appliance.

6. Do not use this device near a furnace or other heating appliance.

7. Do not use this device near a gas stove or other gas appliance.

8. Do not use this device near a fireplace or other fire source.

9. Do not use this device near a swimming pool or other body of water.

10. Do not use this device near a beach or other outdoor area.

11. Do not use this device near a car or other vehicle.

12. Do not use this device near a train or other public transportation.

13. Do not use this device near a school or other educational institution.

14. Do not use this device near a government building or other official building.

15. Do not use this device near a hospital or other medical facility.

16. Do not use this device near a prison or other correctional facility.

17. Do not use this device near a court or other judicial building.

18. Do not use this device near a police station or other law enforcement building.

19. Do not use this device near a fire station or other fire department building.

20. Do not use this device near a military installation or other government facility.

### FCC Radiation Exposure statement

This device complies with the FCC rules for Class B digital devices. It does not cause harmful interference, and it is immune to harmful interference from other digital devices.

1. Do not use this device near a television or other electronic equipment.

2. Do not use this device near a telephone or other communication equipment.

3. Do not use this device near a microwave oven or other heating appliance.

4. Do not use this device near a refrigerator or other cooling appliance.

5. Do not use this device near a dryer or other laundry appliance.

6. Do not use this device near a furnace or other heating appliance.

7. Do not use this device near a gas stove or other gas appliance.

8. Do not use this device near a fireplace or other fire source.

9. Do not use this device near a swimming pool or other body of water.

10. Do not use this device near a beach or other outdoor area.

11. Do not use this device near a car or other vehicle.

12. Do not use this device near a train or other public transportation.

13. Do not use this device near a school or other educational institution.

14. Do not use this device near a government building or other official building.

15. Do not use this device near a hospital or other medical facility.

16. Do not use this device near a prison or other correctional facility.

17. Do not use this device near a court or other judicial building.

18. Do not use this device near a police station or other law enforcement building.

19. Do not use this device near a fire station or other fire department building.

20. Do not use this device near a military installation or other government facility.
