Subject; **Modular Transmitter Application**

Company name: Jiaxing Nuodekang Intelligent Home Co. Ltd.
FCC ID: 2BNG3-MMBA02

Dear Sir/Madam,

This letter includes the FCC application requirements for Modular Transmitter
Approval Request for;-

FCC KDB 996369 D01 'Module Certification Guide v02; and
FCC KDB 996369 D03 OEM Manual v01

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01
'Module Equip Auth Guide v02'. FCC ID : 2BNG3-MMBA02 has been examined
against the following requirements.

Requirement per 15.212 and KDB 996369 D01	Explanation from Grantee (do not write yes/no, but explain why product complies/how it is achieved)
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	No. EUT without shielding cover, The product is installed in the finished host when in use, refer to the manual for installation instructions
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	Yes. The module have specifically incorporated buffered modulation/data inputs into the module design, ensures that signals are properly processed and buffered before entering the device, thereby avoiding compliance issues caused by unstable signals or interference.
The module must contain power supply regulation on the module.	Yes. The product is installed in the finished host when in use, contain power supply regulation.
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	Yes. The module must contain a permanently attached antenna, refer the EUT photos document.

The module must demonstrate compliance in a stand-alone configuration.	refer the test report:MAX24120065P01-R01.
The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748).	Yes. The module labeled FCC ID:2BNG3-MMBA02 on its shield. See label document.
The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	Yes. The module comply with all specific rules, such as transmitter power, frequency, modulation method and signal quality.
The module must comply with RF exposure requirements	Yes. Accrediting the test report:MAX24120065P01-R01. The module comply with RF exposure.

Integration Instructions for host product manufacturers

The following items are submitted in support of application for Modular Transmitter FCC ID as noted above as required by the FCC KDB 996369 D03 OEM Manual v01.

These items are provided as integration instructions for host product manufacturers (e.g., OEM instruction manual) to use when integrating a module in a host product.

Any requirements that are not applicable to the Module are as indicated below.

Summary of requirements and Checklist. Refer to the KDB for description of the complete requirements;

KDB Ref Sect	Requirements of KDB 996369 D03	User Manual Page Number reference
2.2	List of applicable FCC rules	Page 3
2.3	Summarize the specific operational use conditions	Page 3
2.4	Limited module procedures	Page 3
2.5	Trace antenna designs	Page 3
2.6	RF exposure considerations	Page 3
2.7	Antennas	Page 3
2.8	Label and compliance information	Page 3
2.9	Information on test modes and additional testing requirements	Page 3
2.10	Additional testing, Part 15 Subpart B disclaimer	Page 4
