

# USER MANUAL

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF exposure compliance statement: This device has been evaluated to meet the general RF exposure requirement. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

## LED Indicators

| Indicator Code        | Condition  |
|-----------------------|--|
| RED ON                | Disconnected from the network                        |
| BLUE Flashing-quickly | Waiting for distribution network (AP mode, no video) |
| BLUE Flashing-slowly  | Distributing network                                 |
| BLUE OFF              | Successful distribution network                      |
| RED & BLUE both ON    | Long press the reset button to reset                 |

# Device Connection

## 1 APP Download

### 1st Way

Download the "Tuya Smart" App from Google Play Store (for Android) or Apple Store (for IOS)

### 2nd Way

Scan the QR Code to download the "Tuya Smart" App

Warning Tip: Due to federal regulations, the camera does not record audio.

## 2 Register and log in to the APP

### 1st Way

Please register an APP account and log in.
