Long press to turn off the product, and then the LED light is off.

APP Part:

Scan the QR code below to download the **Nantasia APP**. Or search “Nantasia” to download the APP on Apple Store or Google Play. (Scan below QR code is recommended)

How to Use:

1. Classic Play:

To control the device vibrating, there are 9 Top Vibrating modes. Click any pattern on the APP and the device will start the corresponding vibrating frequency. At the same time, the icon on the APP will flash. Click this pattern again, and the device will stop vibrating and enter the standby state, and the icon will also stop flashing.

2. Music Mode:

Select and play the music, the toy will vibrate based on the music's rhythm.

3. Video Mode:

Select a local video, you can watch the video & touch the screen to switch the 9 vibrating modes at the same time.

4. Draw a stroke:

The frequency will change based on the line you draw on the screen. Click the purple button in the lower right corner to begin recording the frequency line you create and save it. Provide a name for it, and then you can find it under 'Frequency'.

5. Interact Mode:

Select Interact Mode, open your invitation code, and send it to your friend. Ask your friend to download our app and register a new account. Then, send the product binding code to your friend so

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to mee general RF exposure requirement. The device can be used in portable exposure condition without restriction.
