

# User Manual

**YM-127**

## Product parameters

Product Model	YM-127
Product size	15.5*12*23.3CM
Horn specifications	Ø52MM 4Ω 5W
Individual weight	0.68KG
Battery capacity	1200MAH
Charging voltage	DC-5V
Battery voltage	3.7V
Playback duration	2-3H

## Key Description:

- 1: Open key
- 2: Charging port
- 3: TF card
- 4: USB port
- 5: Display light
- 6: Press the function switch once, press the light brightness twice, and long press the light effect switch
- 7: Click to go back to the previous song; Long press to decrease volume
- 8: Press pause once, Long press TWS
- 9: Click once, next song; Long press to increase volume

### Warning prompt:

- 1. When the sound system indicates low battery, please charge it in a timely manner and do not turn it off  
Depleted battery during charging, otherwise it may cause the battery to fail to charge!
- 2. This product is equipped with a built-in car battery. Please do not expose it to overheating when using it  
In the environment, please use the correct method to charge!!!

Product Name: Astronaut Bluetooth speaker

### FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
