- Automobile Enthusiasts: Perfect for those who appreciate unique car-related gadgets.

Specifications

- Wireless Technology: 2.4G Optical Wireless
- Design: Unique car-shaped design
- Compatibility: Windows, Mac OS, Linux, etc.
- Portability: Lightweight and easy to carry
- Transmission Distance: Up to 10 meters
- Battery: Requires 1 x AA battery (not included)

Instructions for Use

1. Install Battery

*Open the bottom cover of the mouse.

*Insert one AA battery into the designated compartment according to the polarity symbols (+ and -) indicated inside.

2. Connect USB Receiver

*Remove the USB receiver from its storage slot on the mouse.

*Plug the USB receiver into an available USB port on your computer.

3. Turn On Mouse

- Locate the power switch on the underside of the mouse.
- Slide the power switch to the "On" position.

4. Start Using

- Once the power is turned on, your mouse will connect wirelessly to your computer via the USB receiver.
- You can now start using the mouse for navigation and control.

Common Issues and Solutions

1. Power Saving Functionality:

- Auto Sleep Mode: Enters sleep mode after 5-10 minutes of inactivity.
- Wake Up: Press left and right mouse buttons + scroll wheel simultaneously.

2. Battery Replacement:

- Replace with a new AA battery when low.
- Turn off the power switch before replacing the battery.

Maintenance and Repair

•Cleaning:

- Wipe with a soft, dry cloth.
- Avoid using water or cleaning agents.

•Storage:

- Store in a cool, dry place.
- Keep the USB receiver safe.

•Troubleshooting:

- Check USB receiver connection and battery charge.
- Contact customer support for further assistance.

Safety Precautions

•Electrical Safety:

- Do not disassemble the mouse or USB receiver.
- Use only AA batteries.

•Handling:

- Handle with care.
- Keep out of reach of children under 3 years old.

•Disposal:

- Follow local regulations for battery and packaging disposal.

Thank You! Thank you for choosing Car Mouse Wireless. We hope you enjoy using it. For any questions or assistance, contact our customer support team. This card format should make the information more accessible and easier to read. If you need any further adjustments or additional details, feel free to let me know!

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in portable exposure condition without restriction.
