Ways to Charge	How to Use:	Important Information	
<p>Smart Phone Wireless Charging: will work with most smartphones with Wireless Charging technology. Also compatible with Magnetic Wireless Charging.</p> <p>Apple Watch Charging: Compatible with all Apple Watch generations using induction charging.</p> <p>USB-C Wired Charging: Attach your device via USB cable to the USB-C port and charge your device on the go. Cable not included.</p>	<p>This product is controlled by a switch on the button. Just place your smartphone or Apple Watch on the Power Bank to start charging. This product will automatically shut down after 20 minutes.</p> <p>This product can charge three devices at the same time: a wireless charging smartphone, an Apple Watch, and a Type-C port wired connection. The USB-C port acts as an input and output. You will charge the Powerbank through the Input with the USB-C cable provided. Or you can use it as an Output to charge your device (Device Cable not included).</p> <p>Four blue power indicators. If one blue indicator lights up, the power is within 25%. Two blue lights indicate that the power is within 75%. Four blue lights indicate that the power is within 100%. When the last light flashes, the power is less than 5%. Please charge as soon as possible.</p>	<p>Please pay attention to the following problems otherwise it may lead to abnormal charging, excessive charging temperature, intermittent charging or even a complete lack of charging.</p> <p>If this product is not used for a long time, please charge it at least once every 3 months.</p> <p>The charging distance is 2-6mm. Please do not assemble a protective shell thicker than 2mm. Do not collide, disassemble, puncture or place in a high temperature or humid environment. Children must use this product under the guidance of adults.</p>	<p>This device complies with the part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help. <p>The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction</p>
