Phone fill light assistant shooting device. Please read the manual carefully before use and keep it properly for future reference.

## Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

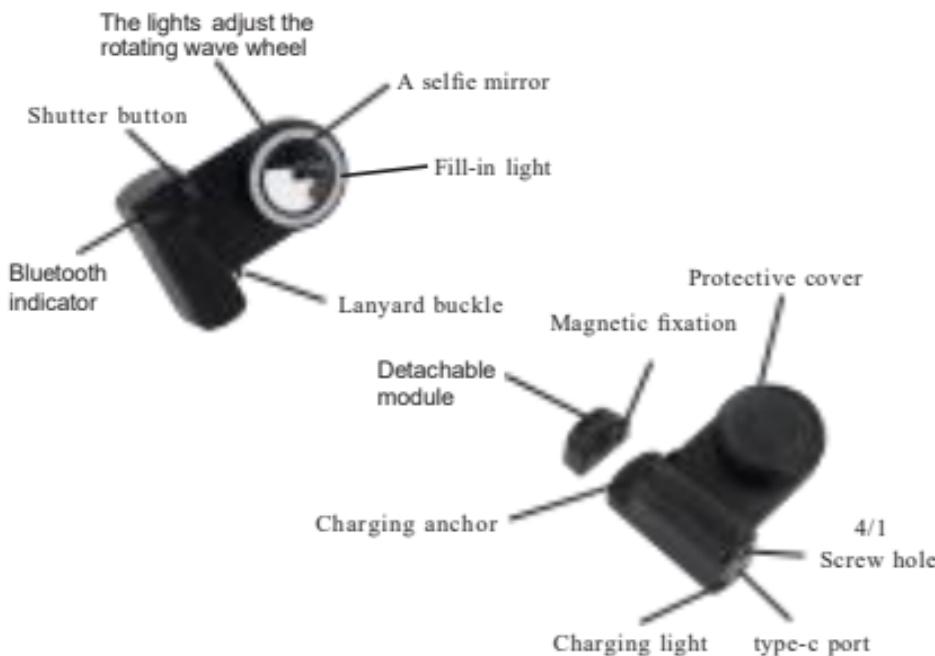

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

## Product Description

## Product Parameters

Product Name: Phone Fill Light

AssistantModel: BBC-9

Bluetooth Name: BBC-9

Product Color: BlackProduct

Size: 117\*83\*40mm

Product Weight: 110g

Battery Capacity: 750mAh

Input Interface: Type-c Rated

Voltage: DC5V-9V

Rated Current: 0.5A

## Instructions

Read the product manual first!!!

**Bluetooth:** Press and hold the shutter button for 2 seconds to turn Bluetooth on or off. The indicator light will flash blue. Turn on your phone's Bluetooth and find the BBC-9Bluetooth name. Click to connect. After the connection is successful, the blue light will stay on. Press the shutter button to take photos or videos.

**Turn on the fill light:** First, turn the protective cover counterclockwise to open it, then turn the handwheel counterclockwise to turn on the fill light. The warm light and white light alternate. Turn clockwise until it cannot be turned to turn off the fill light (when it cannot be turned, do not use excessive force to avoid damage to the handwheel switch).

**Charging indicator:** When the handle is out of power, the indicator light does not work. At this time, you need to charge the handle. The red light is always on during charging, and the blue light changes when it is full. The charging time is about 2 hours.

## Precautions

**Caution:** Do not shake the bracket vigorously to test the magnetic strength during use to prevent the phone from falling and breaking!

- 1: Please keep away from fire sources, store in a cool and dry place, and avoid direct sunlight.
- 2: Please do not disassemble this product by yourself to avoid product failure.
- 3: Please do not immerse this product in water or rinse it directly to avoid damage.
- 4: It is forbidden to place it together with flammable and explosive materials.
- 5: Children should use it under the supervision of their parents.
