

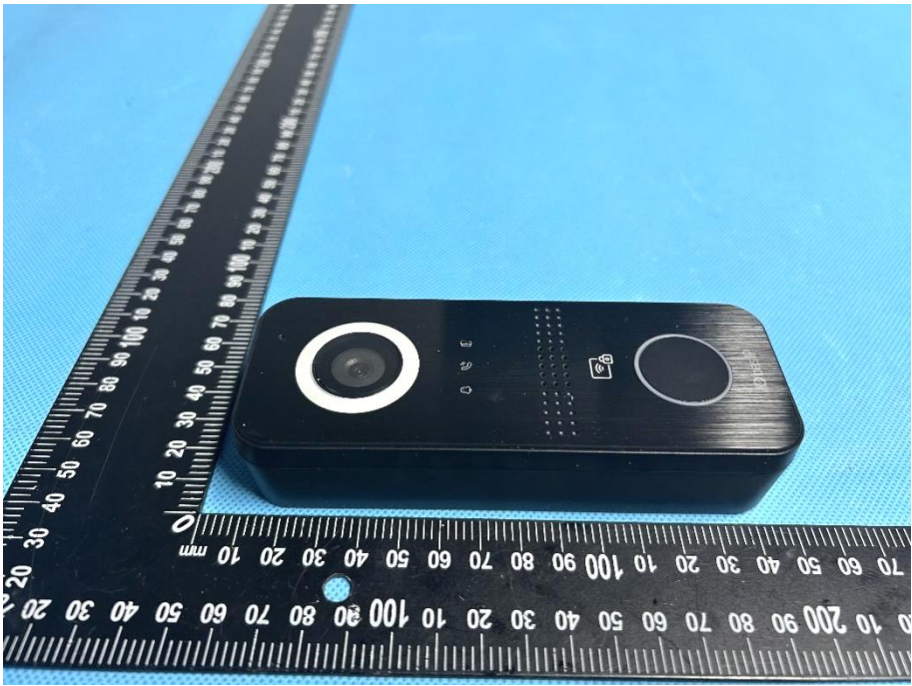

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A photograph showing two views of a black electronic device (EUT) side-by-side on a blue textured surface. On the left is the front view, featuring a circular camera lens at the top, a small display area in the middle, and a circular home button at the bottom. On the right is the back view, showing a rectangular cutout at the top, a small blue LED light in the middle, and a rectangular port at the bottom. A black L-shaped ruler is placed next to the devices for scale, with markings in centimeters and millimeters.
EUT View 2	 A photograph showing the front view of the black electronic device (EUT) on a blue textured surface. The device has a circular camera lens at the top, a small display area in the middle, and a circular home button at the bottom. A black L-shaped ruler is placed next to the device for scale, with markings in centimeters and millimeters.

EUT View 3	 A photograph showing the back of a black, rectangular basIP device. The device has a white label with technical specifications and a barcode. A black L-shaped ruler is placed next to the device for scale, showing measurements in millimeters and centimeters. The background is a light blue textured surface.
EUT View 4	 A photograph showing the front of a black, rectangular basIP device. The device features a circular camera lens at the top, a small display screen in the middle, and a circular button at the bottom. A black L-shaped ruler is placed next to the device for scale, showing measurements in millimeters and centimeters. The background is a light blue textured surface.

EUT View 5	 A black rectangular electronic device is shown from a top-down perspective. It features a large circular lens on the left side and a smaller circular sensor or camera on the right side. Between them are several small, indistinct markings. The device is placed on a blue textured surface next to a black ruler with white markings, which provides a scale for the device's size.
EUT View 6	 A black rectangular electronic device is shown from a top-down perspective, similar to View 5. It features a large circular lens on the left side and a smaller circular sensor or camera on the right side. Between them are several small, indistinct markings. The device is placed on a blue textured surface next to a black ruler with white markings, which provides a scale for the device's size.
