Appearance introduction

Please learn the camera interface and buttons before you use it .

Note:
Long press the reset button to restore factory settings.

Quick configuration

Step 1 Download APP

Tips : Search “NBK Smart” in the App store or Google play to download.

Step 2 Power on

Powered on camera, it will make a voice “system starting up, wait be configured” after several seconds, you can make the camera pair network. If the camera does not make the voice for long time, please long-press the camera reset button to restore factory settings.

Note:
If you need local storage, please install the TF card firstly, then power on the device (the TF card does not support hot swapping, please plug and unplug the TF card when the camera is powered off). Cloud storage is recommended, which is safe and convenient. Details See "Step 4" for operation.

Step 3 Configure the network of the camera

- 1.Connect your phone to Wi-Fi.
- 2.Open the NBK Smart app, register an account and login(Figure 1).

Step 4 Cloud Storage

- 3.After successful login, click the “+” button (Figure 2).
- 4.Provide a power supply to the camera (Figure 3).
- 5.Set network configuration according to the camera's voice prompts and the APP interface step-by-step guide. when the camera issues a “connect successfully” voice prompt, indicating that the network configuration is successful.

Step 5 Router settings

- 6.After the network configuration is successful, follow the instructions on the APP interface to set the name of camera. (Figure 4,5).

Step 6 Common Questions

- Q: How to save camera recordings?**
- A: 1.Local TF card storage, maximum to 128G. when TF card is full, auto delete older videos, loop record video.
2.Recommend cloud storage, Alarm video storage to cloud server, real-time push alarm small video, safe and reliable, you can learn more on APP cloud service page.

Q: What should I do if forget device password?

A: Restore the camera to factory settings, reconnect and set a new password.

Q: How to do if the camera is not connected or offline?

A: 1.Check if the camera power or network of router normally .
2.Plug the camera power to restart camera.
3.Restore the camera to factory settings.

Q: Does it support 5G band routers?

A: If 5G band and 2.4G band of your router are the same SSID, you can connect directly. If 5G band and 2.4G band are not the same SSID(2SSIDs, 5G band is XXXXX-5G,2.4G band is XXXXX-2.4G), please make your phone to connect 2.4G SSID(XXXXX-2.4G) wifi signal, and then pair network.

Step 7 Cloud Storage

Steps to open cloud storage: click the "Service" icon in the device list interface (Figure 7), and follow the guidance of the app interface to buy cloud storage package.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement

To maintain compliance with FCC'S RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
