

**Wireless Charger Instruction Manual**

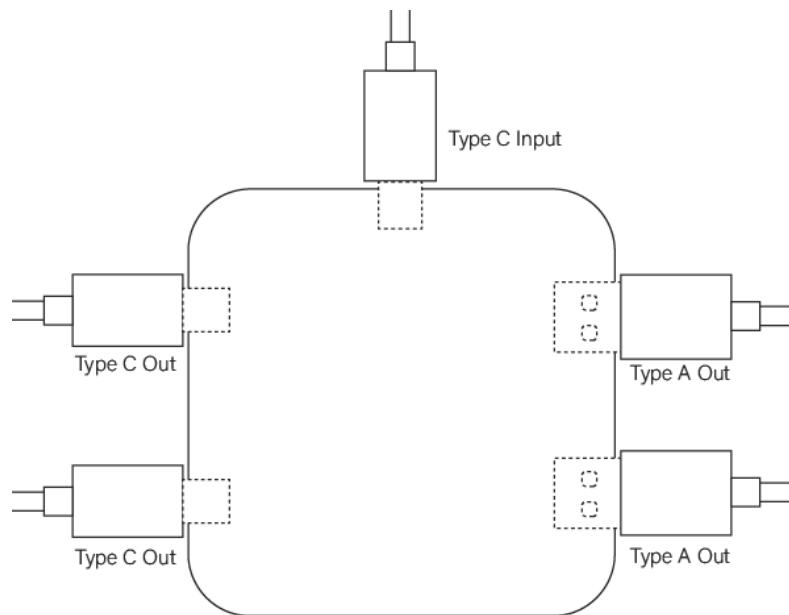

Please read the following carefully before using this device to ensure safe and proper use.

**Package Content**

Wireless charger unit  
User Manual  
USB-A to USB-C charging cable

**Specification**

Input (USB-C): 9V—3A  
USB-A Output: 5V—1A Max  
USB-C Output: 5V—1A Max  
USB-A+USB-C Output: total 5V—2A Max  
Wireless Output: 15W Max  
Red and Blue LED indicators

**Instructions**

1. Connect the unit with a wall charger using the included cable or another quality Type-C charging cable and plug the wall charger into an electronic socket.
2. When powered on, both the Red and Blue LED indicators will flash then just the Red LED indicator is illuminated.
3. When placing the phone on the wireless charging surface the Blue LED indicator lights up, and wireless charging will begin.
4. You can charge other devices by plugging them into the Type-C or USB-A ports.

### **Remark:**

If the Blue LED indicator light is flashing, please check and remove any foreign object between the charger and charging device. If the issue continues, unplug the power adapter and reconnect. Do not use it if the Blue LED indicator keeps flashing.

### **General usage tips**

- To achieve the best charging experience while charging three devices simultaneously. We recommend using the device with a 30W or above adapter to achieve max output for suitable devices.
- For a better wireless charging experience, remove phone cases.
- Do not use a computer or laptop USB port as a power supply. Computer or laptop USB ports do not provide sufficient power for the product to function.

### **Safety information**

- Do not use damaged power cords, wall plugs, or loose electrical sockets with the product.
- Do not use if the product is damaged
- Do not drop or cause an impact on the product.
- Do not disassemble, modify, or repair the product.
- Do not burn or place the product in a hot environment.
- Do not place metal objects between the phone and the wireless charger or on top of the wireless charger.
- Keep the product away from water or humid environments.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
