

# User Manual for Bluetooth Ceiling Speaker

It is an active speaker that plays music through wireless connection to Bluetooth devices. Once installed, simply connect the power cord and no other operation is required to easily play music. It eliminates the traditional wired connection method and allows you to enjoy high-definition sound quality like live listening when watching movies, playing games, or listening to music. Please read the user manual carefully before using this product. Thank you again!

## List of Packaging Items:

The packaging box includes the following items:

- 1、loudspeaker box 1 pcs
- 2、The power adapter 1 pcs
- 3、Instructions for use 1 pcs
- 4、User receipt 1 pcs

## Product usage precautions:

Please do not attempt to disassemble or replace any parts in the product except for the operation methods specifically marked in the instructions.

Do not put the product into water or any other liquid. This product is not waterproof.

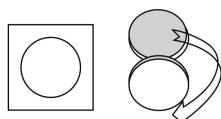

If any liquid accidentally enters the product, please disconnect it immediately and remove the product.

Do not place this product near a heat source or directly exposed to a fire source.

Do not place this product in an environment with strong electromagnetic force, otherwise it may cause product malfunction.

## Installation steps

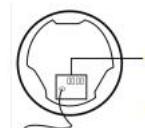

1. Open an installation hole with a side length of 175 mm on the ceiling

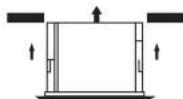

2. Power on the power adapter and connect it to the 5.5 port on the back of the speaker

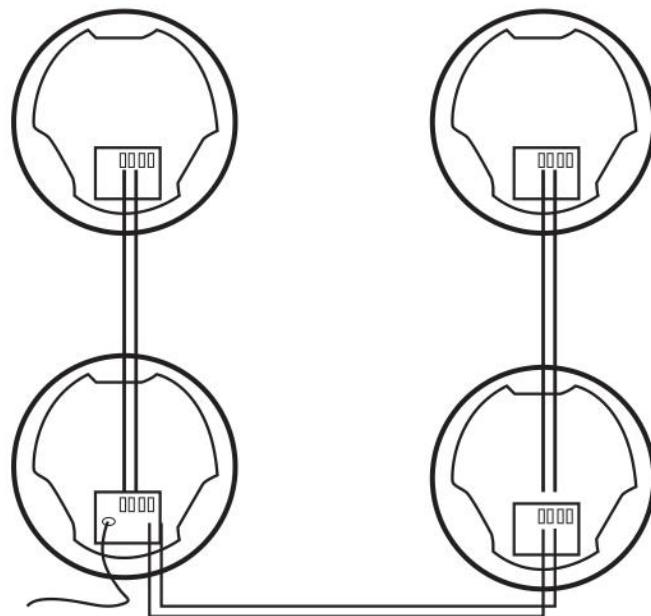

3. The white wiring terminal on the back of the speaker can be connected to the secondary speaker

4、Remove the mesh cover, carefully place the speaker into the installation hole, and tighten it with a screwdriver

5、Important notice: The main unit can be used alone, but the auxiliary unit cannot be used alone. A main unit can be paired with up to three auxiliary units, and only one auxiliary speaker can be connected to the auxiliary speaker at one location. Two auxiliary speakers can be connected in parallel at two locations.

Connect the power adapter

DC12V2A

Product specifications:

Product Name	Bluetooth Host
Supply voltage	DC12V2A
Output power	20W
Impedance	8Ω
Sensitivity	90dB±3dB
Frequency response	120Hz~18KHz
Horn	5.5寸同轴喇叭
Product size	200mmx120mm
Opening size	170mm

#### FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
